

The Lancaster West Residents' Association, Karakusevic Carson Architects (KCA) and partner organisations have played a vital role in establishing the Lancaster West Community Fund and was set up by KCA, the design team for the refurbishment of The Walkways.

The £50,000 Community Fund aims to invest in the following areas:

- Community spaces
- Public areas
- Local community projects that support local residents

We want to hear your ideas on how this funding can be invested to benefit Lancaster West residents.
