

Bridgestone Construction are a local family run business based in Hyde. The company was established in the early 2000's and have been building residential schemes in and around Manchester ever since. During this time, it has been our aim to build a good relationship with the local communities that we work in.

Build Progress

On May 16th, we handed over an additional 152 apartments, underground car park, planted and furnished podium, bin store, cycle stores, tenant stores, laundry room, green finger (running between the site of ourselves and Beaumont Morgan) and Section 278 works on Fairbrother Street.

Block A1 (Towers 1-3) and Block A3 (Towers 7-9) have now completed alongside the previously handed over area of Block A2 (Towers 4-5). This completes the Block A section (comprised of Towers 1-9) which sits on Ordsall Lane.

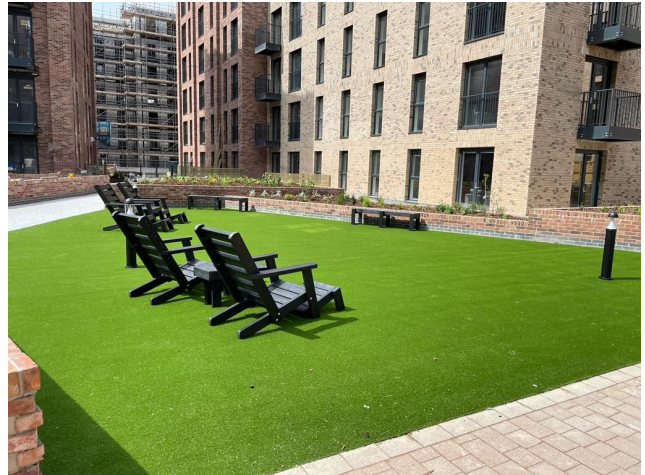

Residents of Dock 5 now have access and private use of all facilities.

Further information is available to view online via the website (<https://www.dock5.co.uk/>)

Ongoing works

Blocks B & C are due for handover at the end of the year with another 121 plots, retail unit, gym, cinema, residents lounge and final external works.

Site access remains at the end of Fairbrother Street, but all works will now take place by the river with Block C completing prior to Block B.

Further Information

We look forward to updating you with the progress of the build and hope that it is not interrupting your daily life too much.

As a community, we're all helping to raise the standards in the local area by providing superb residential living in place of the run-down commercial units that once stood.
