

I regret killing husband and mother of Judge Lefkow as much as I regret that I have to die for the simple reason that they personally did me no wrong

After I shot husband and mother of Judge Lefkow, I had a lot of time to think about 'life and death' - killing is no fun, even though I knew I was already dead.

But Mr. Lefkow discovered me in the utility room about 9 a.m., he had an office next to the utility room. Then I heard voice 'Michael, Michael,' so I looked to the hallway (in the basement) and saw an older woman. I had to shoot her too.

I followed with a second shot to the head in both cases to minimize their suffering," he added.

Judge Lefkow was No. 1 to kill because she finished me off and deprive me to live my life through outrageous abuse of judicial power and decicration of the judicial office. Judge Lefkow, to her neighbors, is a church-going 'angel.' To me, Judge Lefkow is a Nazi-style criminal and terrorist.
