

My dear [Name],

I know you will be very disappointed with me as to you I might seem to be getting better but the tablets are not giving me any improvement I love you very much and am sorry to have to take this step.

I hope you will be able to sort things out. Maybe the money from Texas will not be paid but I have some shares which you should have.

I think it is wonderful the way God has looked after me and as you know I don't think death is the end of the story

I love you very much indeed

Love from [Name]
