

## Articulated Assessment Transfer Task

**DIE Imbissstadt**

**THE Food City**

**Berlin**

### Context

Berlin's "new heritage," its diversity and the availability of foods from around the world are just a brief bus or subway ride away. We present a contemporary perspective on diversity in the German-speaking world through one Berlin custom: street foods. Prepare a culinary tour of **DIE Imbissstadt** to highlight Berlin's multicultural reality with arts and music, accompanying Berlin's food scene: "Eating on the Go in **THE Food City**."
