Chapter Five: The Education Program

Review Questions

What are the 5 steps discussed in this chapter to help you learn about the curriculum in your school?

“Inquiry is truly in the DNA of the librarian.” List and summarize the four inquiry learning models discussed in this chapter.

The idea of libraries as learning commons is discussed in this chapter. What are some benefits of having a library become a classroom for everyone in the school community?

Remember the essential questions from the beginning of the chapter? Now that you’ve studied this chapter, are you able to answer these questions?

- What roles do school librarians play in teaching of reading and the promotion of a culture of literacy?
- How can librarians improve instruction through modeling learner-centered teaching strategies and partnering with classroom teachers?
- How do school librarians integrate traditional and emerging literacies and inquiry skills into schoolwide teaching and learning?

To further deepen your understanding of this chapter, be sure to look at the Challenges to Promote Growth found on page 96.
