

## Exercise B4.5: Adjectives and nouns in the dative case

This exercise focuses on adjectives from the vocabulary lists for Chapter 3 and Chapter 4.

	1st declension	2nd declension	3rd declension

Some of the adjectives in the sentences below are 2-1-2 adjectives, others are 3rd declension adjectives. The table above shows the different dative endings for the different declensions.

In each of these sentences the adjective needs to agree with a noun in the dative case. Choose the correct adjective and then translate the sentence.

*The Romans trusted the happy gods.*
