

Exercise B16.2: Subjunctive verbs (Latin into English)

This exercise practises recognising imperfect and pluperfect subjunctive forms for the verbs you have met in Chapter 16.

Sort the verbs into the correct category in the table below and identify the person of each one. You do not need to translate the verb into English, since a subjunctive verb's translation will depend on its context.

orarem imperavisses hortareris
conficeret surrexissemus redderemus
coactus esset hortatae essemus verterentur confecta essent

| imperfect subjunctive active | imperfect subjunctive passive | imperfect subjunctive deponent |
|------------------------------|-------------------------------|--------------------------------|
| | | |

| pluperfect subjunctive active | pluperfect subjunctive passive | pluperfect subjunctive deponent |
|-------------------------------|--------------------------------|---------------------------------|
| | | |
