

## Timeline

Stages	Chapters
1. List interests/research preferences	3, 4, 5
2. Generate ideas	6, 7
3. Shortlist possible hypotheses/research questions	8, 9, 10, 11
4. Literature search	12, 13
5. Investigate research methods/data collection/analysis	20-25
6. Decide on topic	14
7. Decide on type of investigation/research methods/instruments/techniques	15
8. Write this up explaining why you chose them	15
9. Writing the research proposal	15
10. Plan timetable/deadlines/stocktaking	16
11. Organise retrieval system	17, 18, 19
12. Plan 1 <sup>st</sup> dissertation outline	26
13. Begin writing 1 <sup>st</sup> draft: literature review/introduction/research methods	27, 28, 37, 38, 39
14. Gather evidence/data	20-25
15. Sort/analyse results	28, 29-36
16. Write up results – sort out graphs/charts etc.	28
17. Plan main chapters	26, 37
18. 1 <sup>st</sup> draft: write main chapters – introductions/paragraphs/conclusions	29-36, 37-39
19. Put 1 <sup>st</sup> draft together – check sequence – coordinate introduction/conclusion/literature reviews	26-28, 37, 42
20. Revise structure	42
21. Revise content	43
22. Reference list/bibliography	40, 41
23. Final presentation: check – contents/acknowledgements/title/tables/pagination	43
