## Country-specific education levels (Q275A, Q276A, Q277Q, Q278A)

Country-specific education levels – highest education level attained by the respondent; spouse; mother; father – are coded using scales provided by the national survey teams. Subsequent versions of the WVS data-set might include further updates. Countries surveyed, but not listed here means: the national team made a choice to use only international ISCED-2011 classification (coded in variables Q275, Q276, Q277, Q278).
