

BLOOMSBURY MEDIEVAL STUDIES

CORE COLLECTION

Global. Visual. Interdisciplinary. Open up the Medieval world

"Bloomsbury Medieval Studies offers the best value proposition for schools with medieval studies programs, though it should appeal to any library that supports an undergraduate liberal arts curriculum or advanced scholarship in the arts, religion, history, literature, and other academic disciplines."

–Library Journal

Bloomsbury Medieval Studies Core Collection, named one of the best databases of 2020 by Library Journal, brings together high-quality secondary content with visual primary sources in a one-stop digital resource for your faculty, students, and researchers.

- › Discover a broad range of scholarly books including primary texts, research monographs, companions and more from a range of top publishers.
- › Delve into exclusive reference work the *Encyclopedia of the Global Middle Ages*, written by an international group of scholars it combines thematic overviews, primary source analyses, and core case studies.
- › Explore exceptional visual sources, including newly-digitized and rare incunabula from Senate House Library, high-resolution medieval maps from the British Library, and images from the Metropolitan Museum of Art.
- › Be inspired by teaching and research resources curated by major scholars, including lesson plans and introductory articles.
- › The collection is updated regularly with new, cutting-edge research to maintain a rigorous academic standard.
