

Dora:	An' d'yuh think you'll still be able tuh come up on the weekend;	FPP _{base} Question (about a prior arrangement)
Helen:	Uh .hh well no I don' think we'll be able tuh do it this weeken'.	SPP _{base} Answer
Dora:	Ouh.	Post-expansion, SCT Note <i>oh</i> shows Dora knows something she did not before, but does not display acceptance of the action Helen has performed (cancelling previous arrangement).

Helen:	It's uh:m [s-	Incomplete turn is overlapped. Appears to be designed to continue prior SPP _{base} .
Dora:	[Y're dad will be so:: disappointed.	Post-expansion, SCT, assessment
Helen:	.Hhh huhhhh yeah w'll- uh- w'll I don' know i's goin' to be hard tuh ged away with everything that's happenin' here,	FPP _{post} Post-expansion, FPP telling - providing a warrant (reason/excuse) for SPP.
Dora:	Mhm.	SPP _{post} Acknowledging telling. Note this is a very minimal form. Because it is minimal it can be heard as an acknowledgement or a continuer (=invitation keep talking).
Helen:	An' Will really wants to be at that game yih know	Post-expansion continuation of FPP _{post} . Note the continuation here would suggest that Helen has heard this as a continuer.
Dora:	Mm.	SPP _{post} .

		Note that the issues around Dora's earlier <i>mhm</i> turn also apply here.
Helen:	and tha' makes things a bit hard	Post-expansion continuation of FPP _{post} . Again Dora's <i>mm</i> . seems to be understood by Helen as a continuer.
Dora:	Mm.	SPP _{post} . Note that the issues around Dora's earlier <i>mhm</i> turn also apply here.
Helen:	and u::hm::,	Post-expansion continuation of FPP _{post} . Turn is incomplete. Again Dora's <i>mm</i> . seems to be understood by Helen as a continuer.

Dora:	We:ll i's a pity.	SPP _{post} . Assessment as a response to the telling. Forms possible proposal to close the sequence (that is, it allows for initiating a sequence closing sequence) by displaying the sequence is potentially ended.
Helen:	°Yeah°	Post expansion Turn 2 of sequence closing sequence. Displays nothing further to talk about.
Dora:	°°yyhhh .h°°	Post expansion Turn 3 of sequence closing sequence. Displays nothing further to talk about.
