

# Preposition Pop! Game

## Materials:

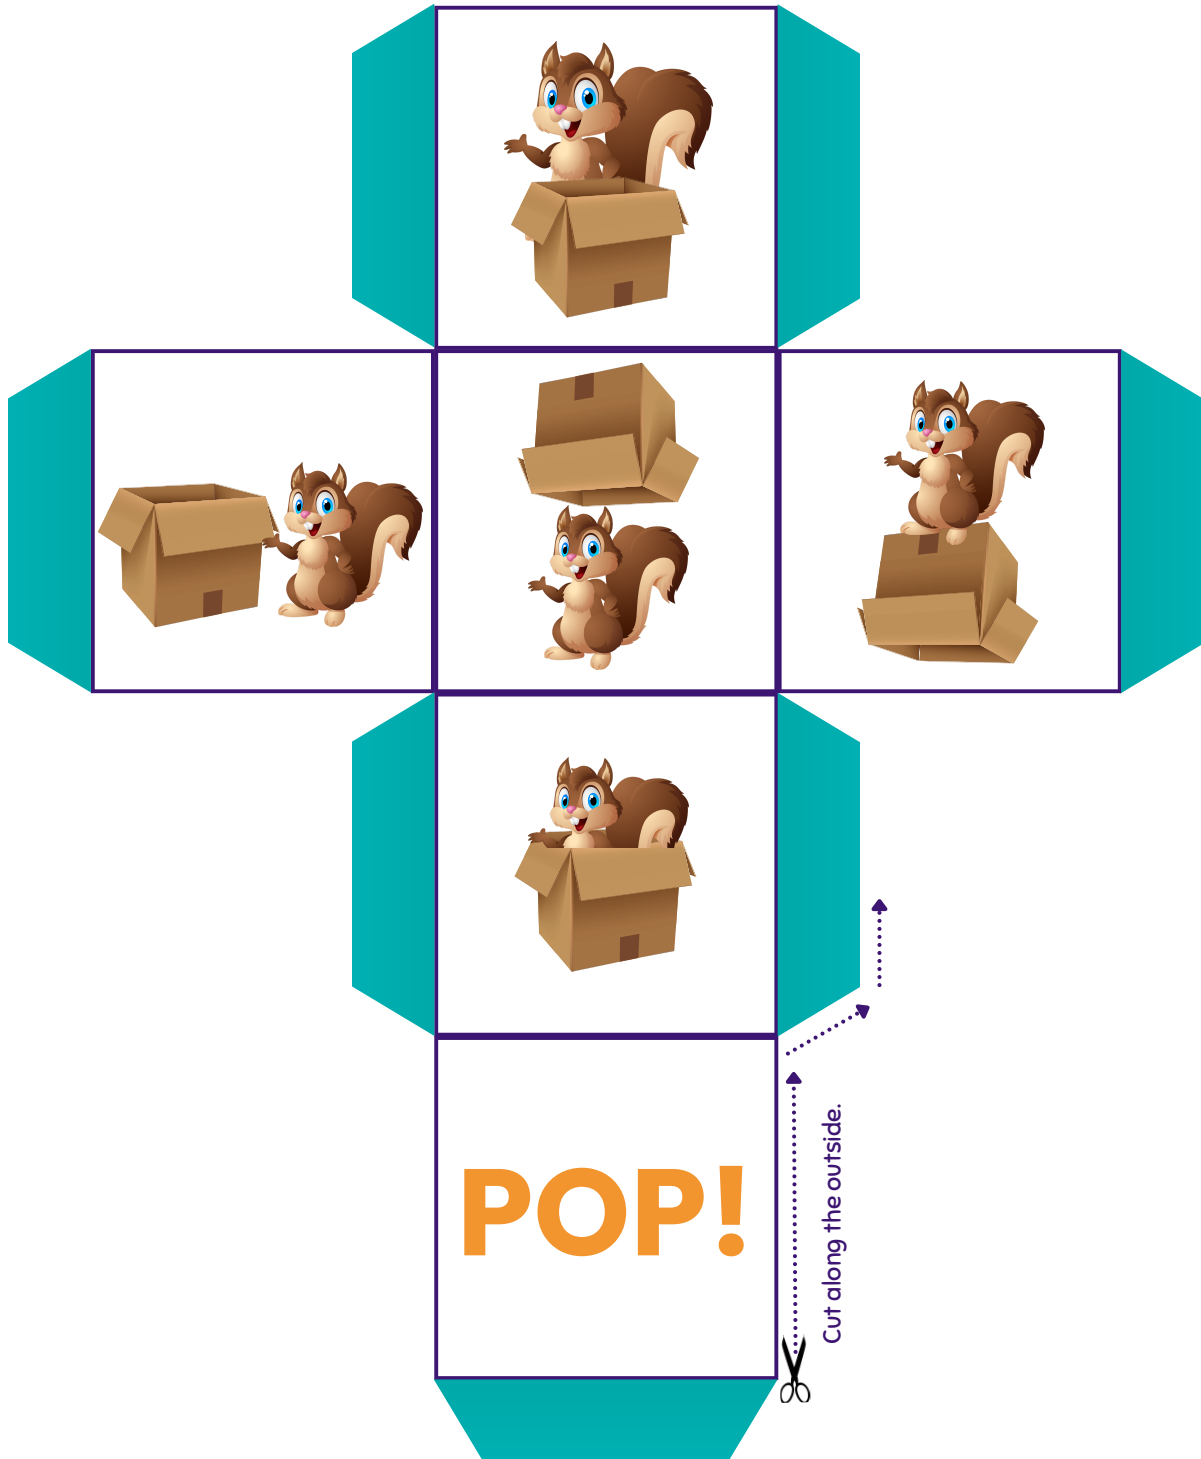

- Printed Prepositions cube
- Sticky tape
- Scissors
- Laminated copies of the word sheet (page 3 of this resource), one per child; alternatively you could put the printed copies in plastic sheet protectors
- Whiteboard markers

## Directions:

1. Each player takes it in turns to roll the prepositions cube like a dice.
2. If a player lands on an image, they find the matching preposition on their word sheet and cross it out. If they land on the word 'Pop', they can cross out any preposition they like.
3. If a player lands on an image and they have already crossed out the options for that image, they skip the turn.
4. The player who crosses out every preposition first wins the game.
