

Direct Speech

Meet Obie and Nuttie. What do you think these two characters might say to each other? Write your ideas in the speech bubbles below.

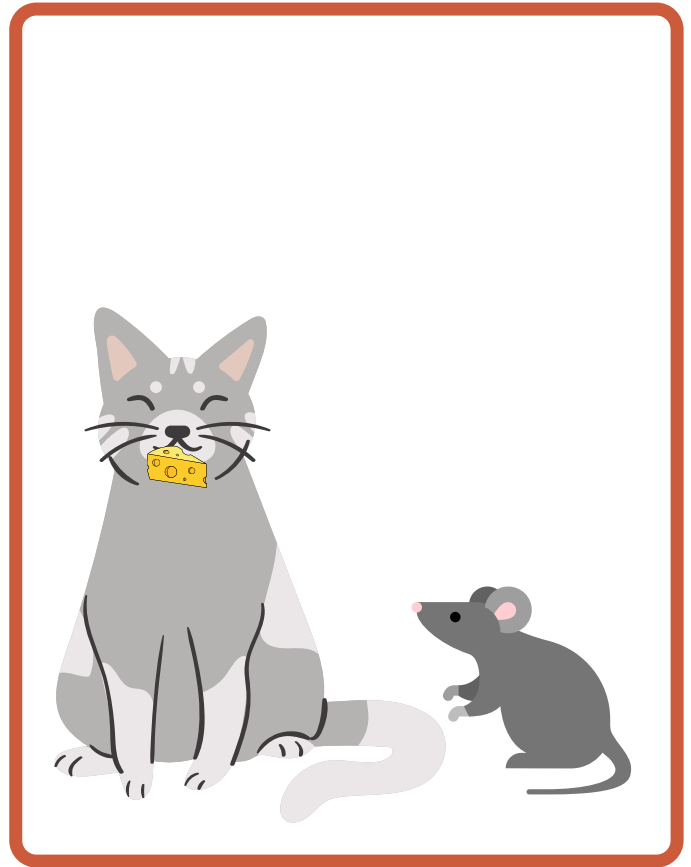

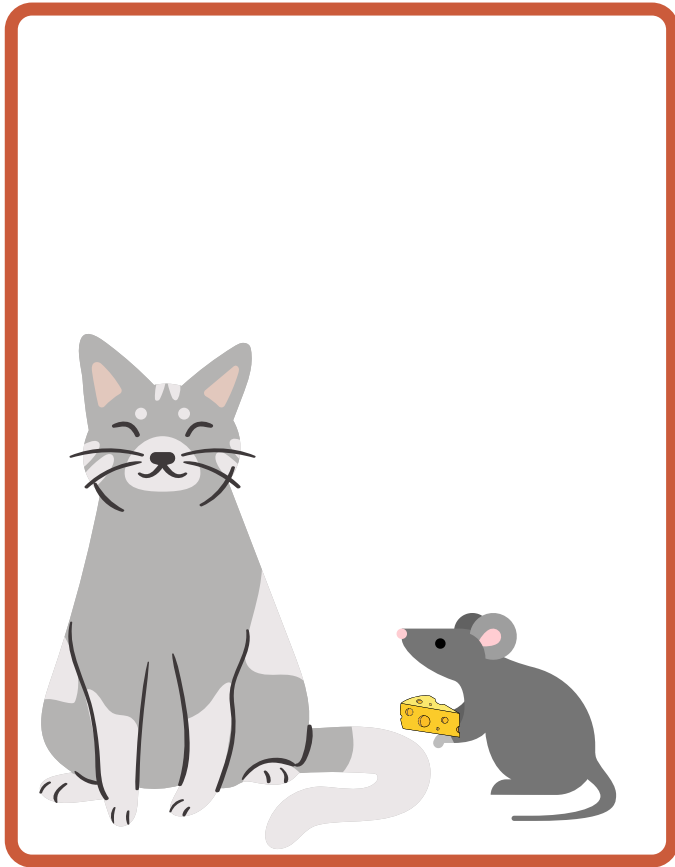

Obie

Nuttie

Direct Speech

Name the two characters below, and create some dialogue for them in the speech bubbles. Remember to use inverted commas.

A large rectangular frame with a brown border contains a grey and white cat on the left and a grey mouse on the right. Between them are several empty speech bubbles for writing dialogue. On the left side, there are three speech bubbles: a standard one at the top, a wider one in the middle, and a standard one at the bottom. On the right side, there are three speech bubbles: a wider one at the top, a wider one in the middle, and a standard one at the bottom. The mouse is positioned next to the bottom-most speech bubble on the right.
