

POPULAR TELEVISION

on SCREEN STUDIES

Get a closer look at television's history, culture, genres and critical frameworks with 97 titles originally published by Rowman & Littlefield. Covering iconic series, influential creators, industry practices and thematic issues, **Popular Television** provides students and scholars with clear, compelling insight into the forces shaping the small screen.

This collection covers:

- In-depth analyses and cultural histories of some of television's most significant and widely studied programmes
- Titles examining how television shapes—and is shaped by—cultural identity, gender, sexuality, race, and social change
- Research-driven examinations of television production, showrunning, formats, and adaptation across global contexts
- Encyclopedias and chronological reference titles essential for contextual research
