GEF-1800/2500/3500

ELECTRIC EQUIPMENT FOR

**HEVI
LIFTING**

HEVI LIFT SERIES FORKLIFTS

Meet the all-electric forklifts from HEVI.

The backbone of warehouses and manufacturing facilities around the world. Our lithium-ion powered forklifts are designed to perform for over 8 hours per charge, without the hassle of managing propane tanks, valves or water evaporation.

UP TO		
3,500KG	8HR	2HR
RATED LOAD	OPERATION TIME	*CHARGE TIME

Powered by lithium-ion batteries, the **HEVI LIFT Series** forklifts offer a sustainable, zero emissions alternative to traditional internal combustion or propane lift trucks, while maintaining the full capabilities and power required to get the job done. With significant reductions in operating noise levels and zero harmful emissions, the HEVI LIFT Series forklifts improve operator health and safety and reduce the carbon footprint of your organization.

KEY FEATURES

The HEVI LIFT Series electric forklift trucks feature the perfect combination of productivity and great cost of ownership.

Industry leading maneuverability and a range of popular capacities enable the product to meet even more of your material handling needs.

Operator safety and protection

Comfortable ergonomic seating

Lithium-ion battery provides 8hr operation

Bright, long lasting LED light fixtures

Horn operation mounted near steering wheel

Side shift fork functionality for alignment

ADDITIONAL FEATURES

HEVI all-electric forklifts are outfitted with sustainability, performance, comfort, and safety in mind.

- › Full AC control system
- › Integrated drive unit
- › Convenient electronic control maintenance
- › Dynamic load sensing steering system
- › Clear view mast design
- › Customization
- › BMS-Battery management system
- › Operator Presence Sensing System
- › Battery diagnosis and repair
- › Ergonomic steering wheel & seat
- › Easy crane lifting and shipboard operation
- › General-purpose battery pack modules

WHY CHOOSE HEVI ELECTRIC FORKLIFTS

Zero Emissions - Reduced Carbon Footprint

All-electric, lithium-ion power offers full operation capability for over 8 hours on a single charge, with zero harmful emissions, significantly reducing the carbon footprint of your organization.

Lower Total Cost of Ownership (TCO)

Fewer moving parts and no requirement for diesel or fossil fuels means the LIFT Series trucks will operate for longer service intervals and significantly cuts costs of consumables and servicing. In addition, our guarantees provide complete peace of mind, covering batteries for 5 years and mechanical parts for 10.

Improved H&S and Working Conditions

With zero harmful emissions and 60% reduction in operating noise levels, the LIFT series trucks are ideally suited for internal warehouses and operational areas, improving working conditions for operators.

Quality Build and Components

HEVI manufactures the highest quality heavy equipment available, and we're proud of the strict levels of quality that we insist go into every part of the build.

TECHNICAL SPECIFICATIONS

MODEL	GEF-1800	GEF-2500	GEF-3500
LOAD CAPACITY	1.8 T / 1800 kg	2.5T / 2500 kg	3.5T (3500kg)
VEHICLE WEIGHT	7450 lbs / 3380 kg	9040 lbs / 4100 kg	11840lbs / 5370 kg
LIFT HEIGHT	Up to 15 ft / 4500 mm	Up to 20 ft / 6000 mm	Up to 20 ft / 6000 mm
FORK SPREAD	39.5/8 in / 1000/200 mm	39.5/10 in / 1000/250 mm	43.5/10in / 1100/250 mm
VEHICLE WIDTH	44.5 in / 1130 mm	46.5 in / 1180 mm	50 in / 1270 mm
TURNING RADIUS	78 in / 1980 mm	86.5 in / 2200 mm	93.5 in / 2380 mm
MAX SPEED WITH LOAD	9.3 mph / 15 km/h	9.3 mph / 15 km/h	9.3 mph / 15 km/h
BATTERY TYPE	Lithium ferrophosphate (LFP)	Lithium ferrophosphate (LFP)	Lithium ferrophosphate (LFP)
BATTERY VOLT/ RATED CAPACITY (V/AH)	48V/360Ah	48V/420Ah	80V/420Ah
