

# Cat®D3

Dozer

#### **FEATURES**:

The new Cat® D3 delivers superior performance and the broadest choice of technology features to help you get the most from your dozer. Nimble and responsive, it has power for dozing and finesse for grading. Fully hydrostatic transmission gives you seamless acceleration, so you can get the job done quickly. The load sensing system automatically optimizes ground speed based on load, for the greatest productivity and fuel efficiency.

#### **IMPROVED VISIBILITY**

New sloped hood provides better visibility to the work in front of the blade as well as the overall job site. Better visibility can equal less operator fatigue and more confidence in your work.

#### **GRADE TECHNOLOGY**

 Scalable 2D and 3D Cat Grade provide technologies like Slope Assist, Stable Blade, and Slope Indicate for easier and more efficient operation, as well as the flexibility to adapt different technology based on job site demands.

#### **UP TO 10% IMPROVED FUEL ECONOMY**

■ The D3 features the lowest fuel consumption in this size class with the same great performance you've come to expect. Up to 20% improvement and no performance sacrifice when ECO mode is active.

#### COMFORTABLE WORK SPACE

The spacious and comfortable cab features an optional heated and ventilated seat, along with heated joystick controls to make the operator comfortable no matter what the conditions are outside. The seat height and armrests can be easily adjusted to the operator's preference.

#### **BIGGER, BETTER DISPLAY WITH CAMERA**

This new and improved optional 10 in (254 mm) touchscreen, color display is easy to use, with a great view of machine settings, rearview camera and Slope Indicate/Slope Assist screens. The large reversing camera gives the operator better visibility to the job site.

#### **DURABLE UNDERCARRIAGE**

The D3 is available with either a Sealed and Lubricated Track (SALT) or Abrasion undercarriage to best suit your application. The undercarriage has a longer life resulting in less down time. A one piece mainframe/track roller frame design and the large, double reduction planetary final drive allow the machine to push heavy loads.

# **Specifications**

#### **Engine**

| Engine Model          | Cat® C3.6   |                     |
|-----------------------|-------------|---------------------|
| Net Power @ 2,200 rpm |             |                     |
| SAE J1349             | 77.6 kW     | 104 hp              |
| ISO 9249, 80/1269/EEC | 77.6 kW     | 104 hp              |
| Power Train           | Hydrostatic |                     |
| Displacement          | 3.6 L       | 220 in <sup>3</sup> |
|                       |             |                     |

- Net power is tested per ISO 9249:2007 and SAE J1349:2011 and as advertised is the power available at the flywheel when the engine is equipped with fan, air intake system, exhaust system and alternator.
- · Engine equivalent to Tier 3 emission standards.

#### Weights

| Operating Weight                     | 9362 kg | 20,640 lb |
|--------------------------------------|---------|-----------|
| Operating Weight – LGP               | 9693 kg | 21,369 lb |
| Operating Weight – LGP, 762 mm/30 in | 9893 kg | 21,810 lb |

- Specifications shown are for machine equipped with dozer blade, EROPS cab, back-up alarm, operator, coolant, lubricants and full fuel tank.
- For machine with ripper, add 554 kg (1,222 lb).

Maximum Travel Speed – Reverse

#### Cab

## **Air Conditioning System**

The air conditioning system on this machine contains the fluorinated greenhouse gas refrigerant R134a (Global Warming Potential = 1430). The system contains 1.8 kg of refrigerant which has a  $\rm CO_2$  equivalent of 2.574 metric tonnes.
