E Series Ejector Finishing Scraper

The Ejector Finishing series scraper is designed for GPS or laser controlled land forming of fields and building sites with higher horse powered tractors. The walking tandem helps eliminate bounce and reduce the "duck walking".

E series scrapers are the largest ejector finishing scrapers manufactured. All E scrapers are equipped with our signature scissor ejector system. The wheel frame with 20.5 x 25 tires provides superior flotation and clearance while leveling.

Model	Heaped Capacity	Cutting Width	Operating Width	Weight (est)	Tires	HP required
16 E	16 yds ³ (12.2 m ³)	192" (4.8 m)	198" (5.0 m)	19,900 lb (9,026.5 kg)	(4) 21.5 x 16.1	300 - 500
14 E	14 yds ³ (10.7 m ³)	168" (4.2 m)	174" (4.6 m)	18,780 lb (8,518 kg)	(4) 21.5 x 16.1	200 - 400
12 E	12 yds ³ (9.1 m ³)	144" (3.7 m)	150" (3.7 m)	17,200 lb (7,801 kg)	(4) 21.5 x 16.1	180 - 300
