DOCUMENT VERSION

3.01 19 June 2018

Please note this document may be updated at any time. We advise that you regularly check for updates, as well as download a copy of this document for storage.

If you have any issues or queries when installing your Colophon Foundry web fonts, don't hesitate to be in touch!

→ WEB FONT INSTRUCTIONS

Please ensure you read these terms thoroughly —

1 INSTALLATION ON APACHE WEB SERVERS

The file named `htaccess.txt` has a line named `your-domain\.com` in it — this needs to be changed to the domain you are serving the font software from. Retain a backslash before any period (\.) to escape that character. It then needs to be renamed to `.htaccess` and placed inside of the folder where the fonts are stored on the relevant web server (E.G. `/fonts`).

```
SetEnvIf Referer yourdomain\.com localreferer
```

```
<FilesMatch \.(eot|woff|woff2|ttf|svg)$>  
    Order deny,allow  
    Deny from all  
    Allow from env=localreferer  
  
    FileETag None  
    <ifModule mod_headers.c>  
        Header unset ETag  
        Header set Cache-Control "max-age=0,  
            no-cache, no-store, must-revalidate"  
        Header set Pragma "no-cache"  
        Header set Expires "Wed, 11 Jan 1984  
            05:00:00 GMT"  
    </ifModule>  
</FilesMatch>
```

2 INSTALLATION ON IIS6 WEB SERVERS

1. Open Internet Information Service (IIS) Manager.
2. Right click the site and choose Properties.
3. Change to the HTTP Headers tab.
4. In the Custom HTTP headers section, click Add.
5. Enter Access-Control-Allow-Origin as the header name.
6. Enter your-domain.com as the header value.
7. Click OK twice.

3 INSTALLATION ON IIS7 WEB SERVERS

Add the following to the `web.config` file in the folder where the font files reside on the webserver and change `your-domain.com` to the appropriate domain:

```
<?xml version="1.0" encoding="utf-8"?>
<configuration>
  <system.webServer>
    <httpProtocol>
      <customHeaders>
        <add name="Access-Control-Allow Origin"
          value="www.your-domain.com" />
      </customHeaders>
    </httpProtocol>
  </system.webServer>
</configuration>
```

4 THANK YOU

Thank you for supporting our business with the purchase of the appropriate license. We hope you enjoy using our font software.

ABOUT COLOPHON FOUNDRY

Colophon is an international, award-winning type foundry based in London (UK) and Los Angeles (US). We create, publish, and distribute high-quality retail and custom typefaces for analog and digital media.

Since 2009, Colophon has tasked itself with producing fonts that are composed with aesthetic and technological care, prompting a reputable library of new classics that couple typographic history with contemporary sensibilities. In tandem with its own designs, the foundry hosts original typefaces drawn by influential practitioners from varied design disciplines. The resulting catalogue offers graphic designers and users-of-type a series of indelible digital tools, each with a distinct typographic identity.

In addition to the offerings in our retail inventory, we accept commissions for custom fonts, font families, and logotypes, as well as tailored / bespoke versions of our existing typefaces, including language extensions.

Colophon Foundry's self-initiated and commissioned work in type design is complemented by independent and collaborative initiatives in publishing, editing / curation, exhibition-making, and teaching, with a focus on local and international partnerships with institutions of all sizes.
