*Slinger cannot be used to make a profit on a journey and can only be used to share the cost of a journey. Slinger will automatically calculate a suggested contribution per passenger based on the length of your trip using HM Revenue and Customs' Approved Mileage Payment Allowance. The cost is capped and can only be reduced from this point. Breaching the no-profit rule will risk legally invalidating your car insurance and make driving your car illegal. Neither Brentford FC or Slinger insure or vet users' driving competency.
