1. Important Safety Information

Before using Nexus Home Lite, please read the following information to avoid any potential dangers:

i. Disconnect the device from the power supply before cleaning. Clean device with a damp cloth, do not use detergents under any circumstances.

ii. Do NOT place the device near heat sources such as ovens, microwaves, hot pans and geysers

iii. Keep out of reach of children.

iv. You should not open the device under any circumstances. This must only be carried out by a qualified engineer.

v. Do NOT touch the device with wet hands due to risk of electric shock.

2. What is Nexus Home Lite?

Nexus Home Lite is a revolutionary automation device that will make your home and life smarter than ever before. This device enables you to have complete control over your Wi-Fi supported devices (Brilliant Wi-Fi Devices, Philips Light, LIFX light) and IR enabled devices at home or business.

3. Features of Nexus Home Lite

- Nexus Home Lite allows you to combine and control all your infrared remotes & Wi-Fi supported devices (Brilliant Wi-Fi Devices, Philips Light, LIFX light) into one Hub to use mobile application acting as a universal remote.
- Using Nexus Home Voice Act smart home skills for Google Home and Alexa, you can automate complex tasks with simple voice commands. For example, say 'Alexa, turn on the AC' to power ON your AC.
- Schedule your activities as per your convenience on a daily basis through the Nexus Home app, making your life simpler and smarter. For Example, 'Turn off AC at 11pm.'
- Control your "Nexus Home" supported devices from anywhere in the world using your smartphone.
- Works with over 110+ devices and is compatible with remotes of most brands.

4. Technical Specifications of Nexus Home Lite

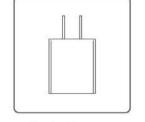

Input	100 ~ 240V, 50/60Hz, 0.25A Max
Output	5V DC, 1.2A
Protocols Supported	WiFi (2.4 GHz) and IR (Infrared)
Range	Upto 10 metres
Operating Temperature	0° C to 40° C
Dimensions	100 x 100 x 20 mm
Amazon Alexa Integration	Yes
Google Assistant Integration	Yes

5. What's in the box?

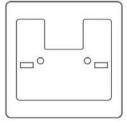

1. Home Lite Hub

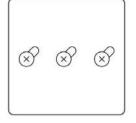

3. USB Cable

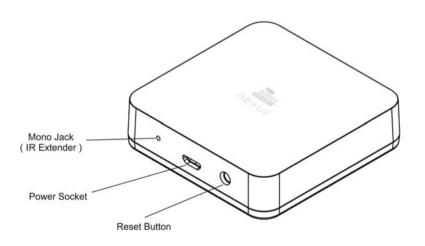

4. Mounting Plate

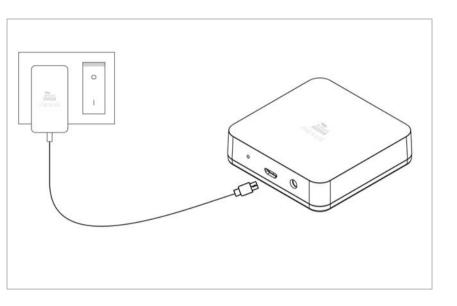

5. Screws

6. Know your Nexus Home Lite

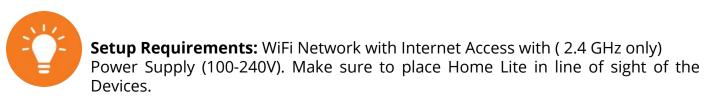

7. Hardware Installation Instructions

Connect one end of the micro USB cable to the micro USB port on the Home Lite and the other end to the power adapter, and plug the power adapter into the electrical outlet.

8. Status Indicators on Nexus Home Lite

LED	Description	
Solid Red	Ready to connect/configure and not added to any account	
Blinking Red	Unable to connect to the Access point of Hub, i.e. Access point is not available	
Blinking Blue	Hub is trying to connect to it's Access Point and Hub Access Point is not having internet	
Solid Blue	Added to account and it's fully functional (Hub is connected to Access Point)	

If no LED indicators are blinking, it means that Home Lite is not getting the power supply. Check the connection and try again.

9. Nexus Home App

Nexus Home App lets you manage your home or business from anywhere, anytime. Manage your IR remote controlled electronic devices from anywhere in the world with one simple Nexus Home App.

You can download the Nexus Home App from the Play Store or App Store:

Play Store Url:

https://play.google.com/store/apps/details?id=com.brilliantlighting.nexus

App Store Url:

https://apps.apple.com/us/app/nexus-home/id1500221391

Nexus Home App allows you to do the following:

- **1.) Remote Control:** Control Home appliances from anywhere.
- 2.) Simultaneously Control: Control multiple devices with one App.
- **3.) Timer:** Set timer to perform multiple functions.
- **4.) Device Sharing:** One tap to share devices among family members.
- **5.) Easy Connection:** Easily and quickly connect App to devices.
- **6.) Universal IR Remote Control:** Inbuilt universal remote control with its on board IR blasters and is capable to work with different devices at Home. Lets your IR legacy devices work with new smart devices.

10. Setting Up Nexus Home Lite

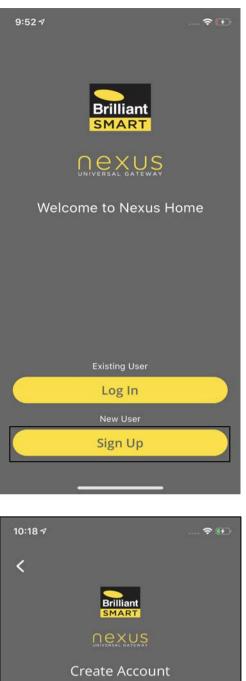

10.1 Sign Up

After downloading the Nexus Home App, allow Nexus Home to use your Location to use some critical features.

If you wish to receive notifications, click on **Allow.**

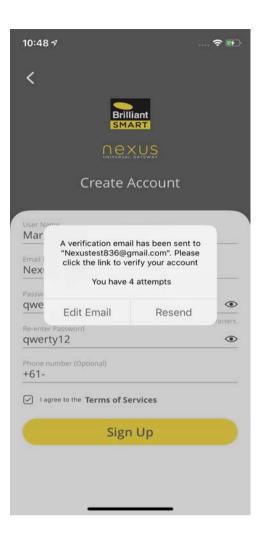

User Name	
Email ID	
Password	۲
Password must be alphanumeric and	at least six characters.
Re-enter Password	۲
Phone number (Optional) +61-	
I agree to the Terms of Services	
Sign Up	

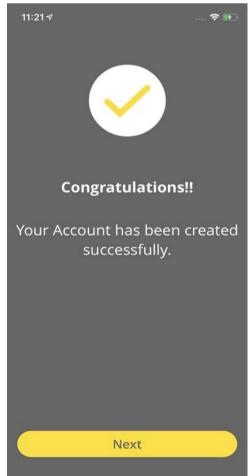

Open Nexus Home App and proceed further by clicking on **Sign Up.**

Enter details in all the mandatory fields and then tap on **Sign Up.**

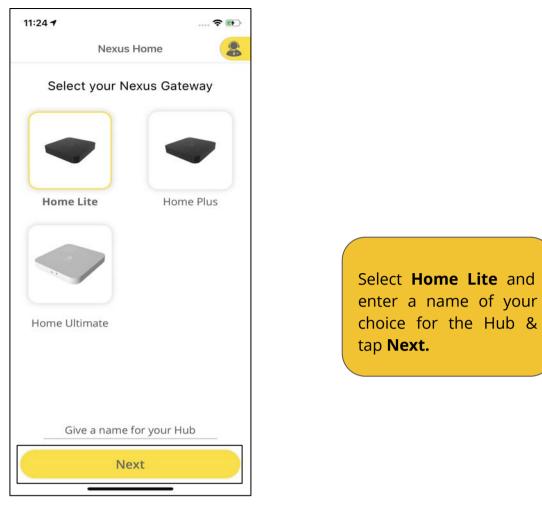

Tapping on Sign Up will send a verification email to the provided email ID. Click on the link in the email to verify your account.

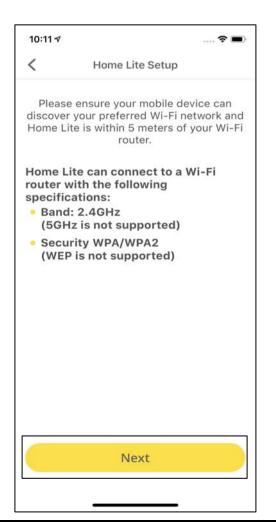

After the verification of Email ID, Nexus Home app will automatically redirect to the screen displaying "Congratulations" as the account has been created successfully.

10.2 Nexus Home Lite Setup

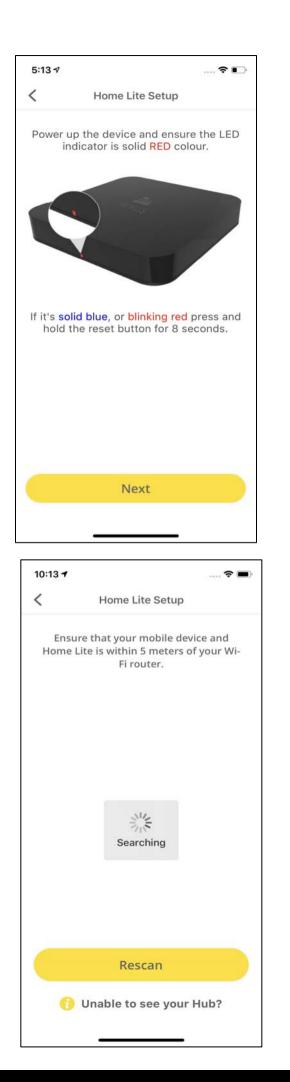

10.2.1 Home Lite Setup using Bluetooth

Please ensure your mobile device can discover your preferred Wi-Fi network and Home Lite is within 5 meters of your Wi-Fi router, Tap **Next**

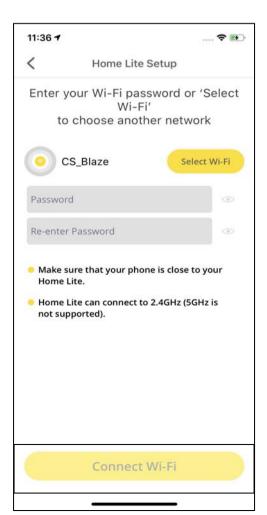

Now, Power up the device and make sure the LED light is glowing in solid Red color.

Once the pop-up appears, click on **OK** to allow Nexus Home to use Bluetooth.

Ensure that your mobile device and Home Lite are within 5 meters of your Wi-Fi Router.

11:35 🕫		🕈 🚯

Select your preferred Wi-Fi network to connect Home Lite to the network.

Enter the password for the selected Wi-Fi network and tap on **Connect Wi-Fi.**

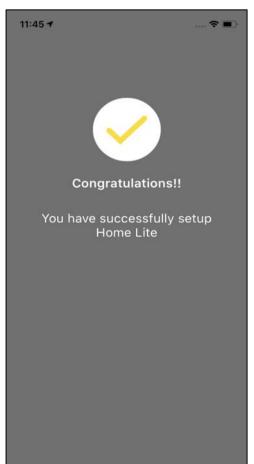

Click **OK** on the pop up screen. Now, open your Wi-Fi settings in phone your and connect your phone to Wi-Fi the same network to which Lite Home is connected and navigate back to Nexus Home App.

The Home Lite connects to your Wi-Fi network and mobile App.

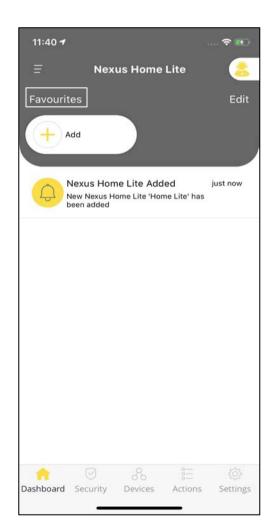

Home Lite is added successfully.

11. App Guide

11.1 App Dashboard

Dashboard displays the Favourite devices/actions selected by the user, providing ease of control of those devices and notifications pertaining to the devices connected with Home Lite.

Favourites

It displays the devices/actions added as **Favourites** by the user. Devices/Actions used more often can be added under this category.

Note: Only upto 6 devices/actions can be added as Favourites.

Notifications

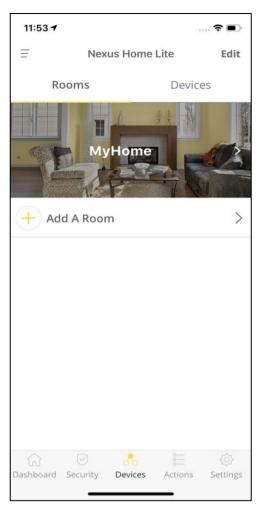

The notifications space on the Dashboard displays notifications for all the devices connected with Home Lite.

Eg: Devices Added & Deleted Notifications, Actions Enabled or Disabled Notifications, Action Started and Ended Notifications, Device Online and Offline Notifications.

The notifications can be turned ON/OFF from the **Notify me** toggle under **Settings.**

11.2.1 Rooms

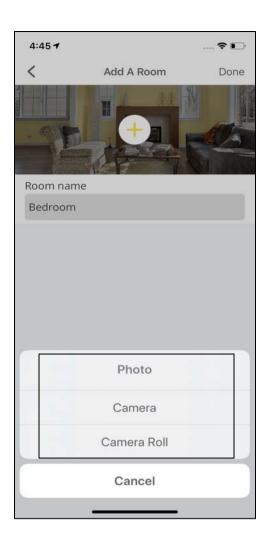

The **Rooms** tab displays all the Rooms available for your Home. The rooms can be added/deleted or the background image of the rooms can be changed here.

Addition of Rooms

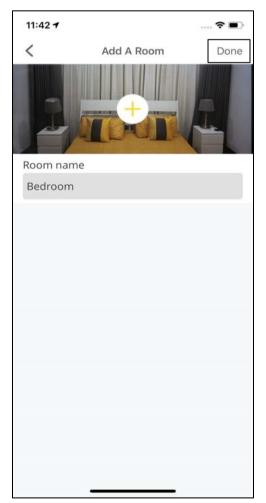

Click on Add a Room under Rooms tab. Provide a name to the room in Room Name. Now, click on + to change the background image of the room.

Click on **Done** at the top right corner of the screen.

Editing Rooms

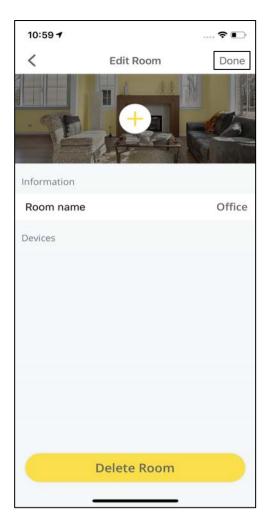

Go to **Rooms** under **Devices** tab. Select the room that needs to be edited.

Click on **Edit** at the top right corner of the screen.

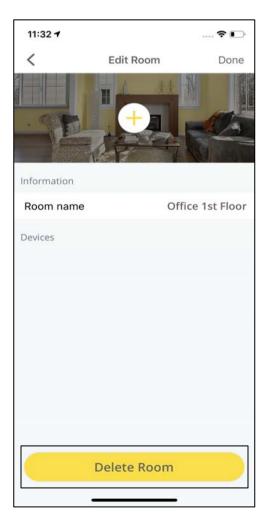

Click on **Add Device** to add/delete devices compatible with Home Lite.

Change the background image or the Room name and click on **Done.**

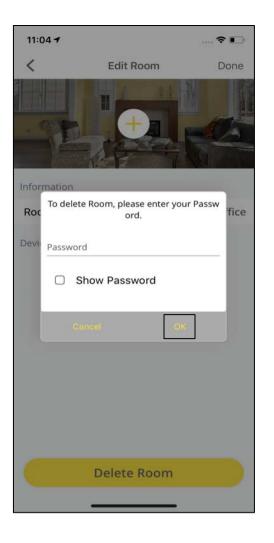

Deletion of Rooms: Option 1

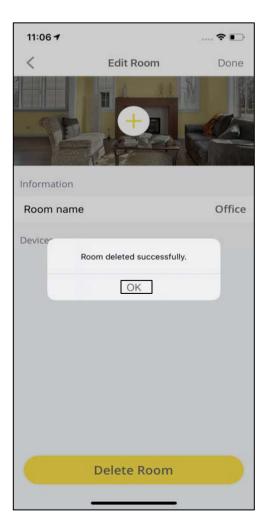

Select the Room that you want to delete from the list of Rooms.

After clicking on **Edit** at the top right of the screen, click on **Delete Room** at the bottom of the screen.

Enter your App password when the pop-up appears and click on **OK.**

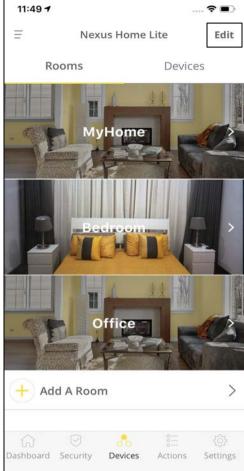

A pop-up will appear mentioning "Room deleted successfully." **Deletion of Rooms: Option 2**

Click on **Edit** at the top right of the screen on the Rooms tab under Devices.

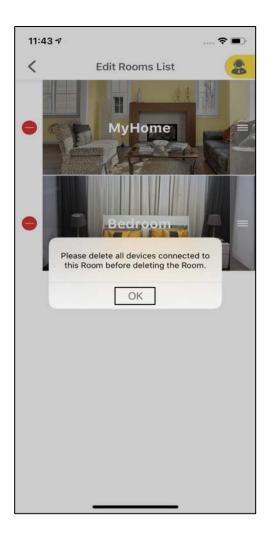

Click on the Red "-" icon against the room that needs to be deleted.

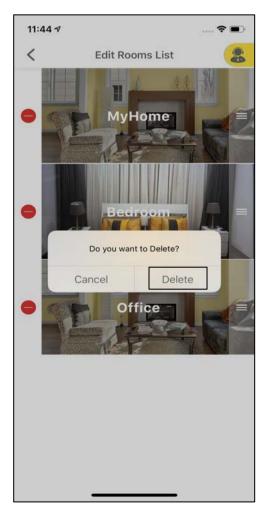

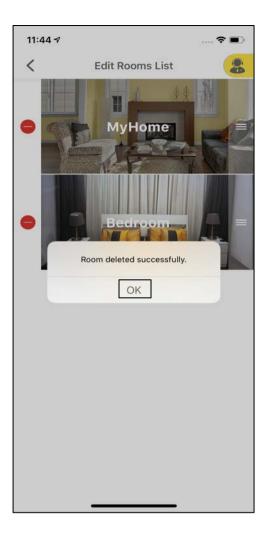

A pop-up appears asking the user to delete all the devices connected to the room before deleting the room.

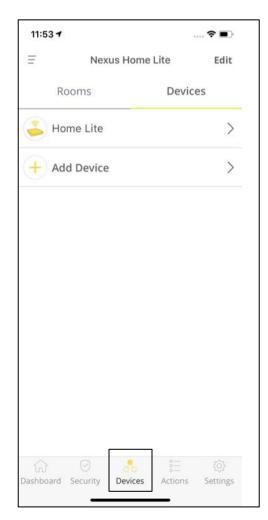

Click on **Delete** when the pop-up appears.

A pop-up appears mentioning "Room deleted successfully".

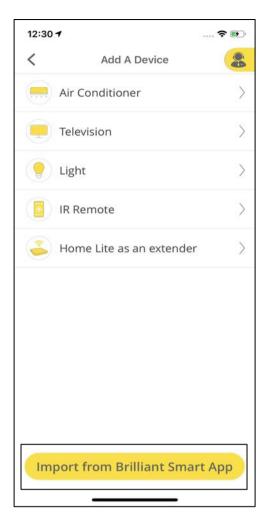

Devices

The **Devices** tab allows the user to add/delete IR devices and Brilliant Wi-Fi devices linked to Home Lite.

11.2.2 Addition of Brilliant Devices

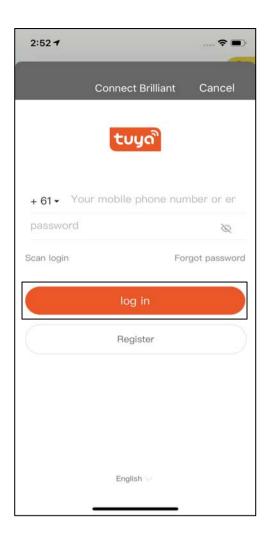

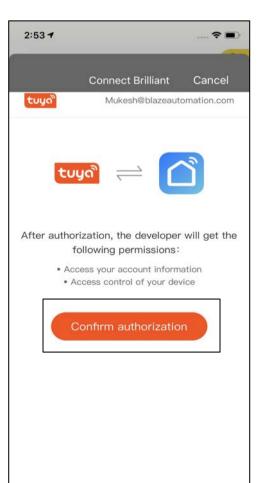

After selecting Add a Device under Devices tab, click on **Import from Brilliant Smart App.**

Follow the on-screen instructions and click on **Login to Brilliant.**

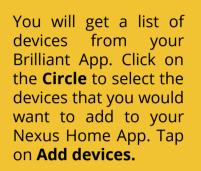

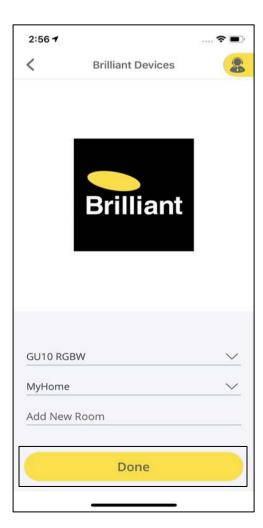

Login to your Brilliant Smart App Account.

TaponConfirmauthorizationtoallowNexusto accessyouraccountinformationandcontrol of your device.

	Smart Powe	er Strip-b	9d8	>
ြာ Dashbo	oard Security	Devices	Actions	्रि Settings

To delete an Extender, click on **Devices** tab and tap on **Edit** at the top right of the screen.

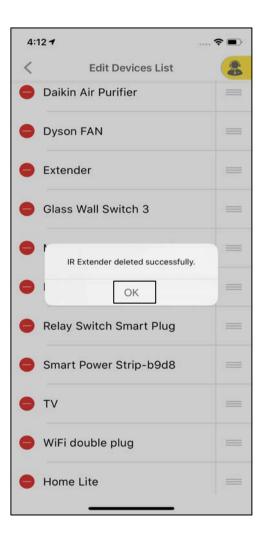

Click on the Red "-" icon against the Extender.

A pop-up will appear. Click on **Delete.**

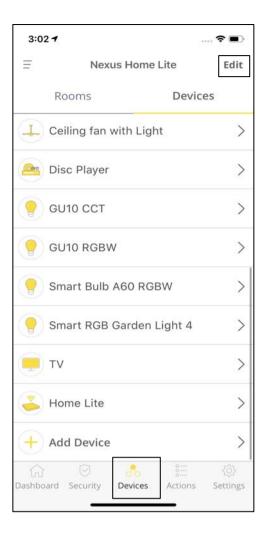

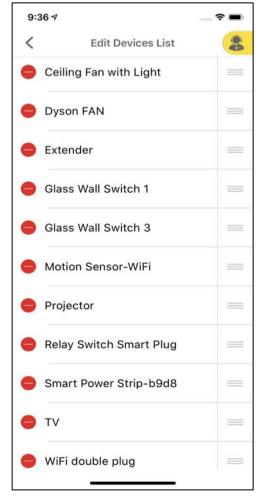

A pop-up will appear mentioning IR Extender deleted successfully

11.2.11 Deletion of Devices: Option 1

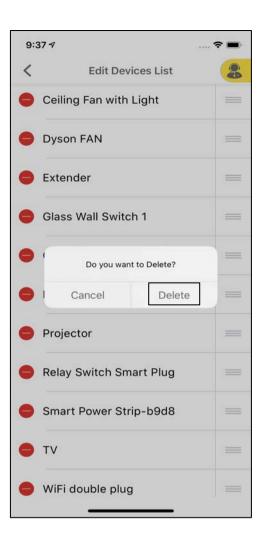

To delete a device, click on **Devices** tab and then tap on **Edit** at the top right corner of the screen.

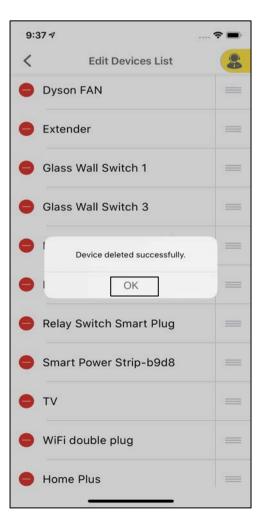

Click on the Red "-" icon to delete the device.

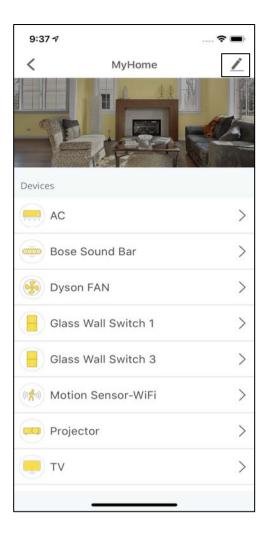

A pop-up appears confirming that the Device has been deleted successfully.

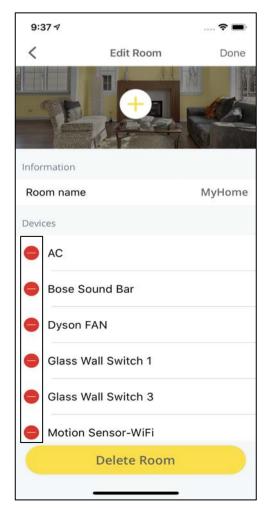

11.2.12 Deletion of Devices: Option 2

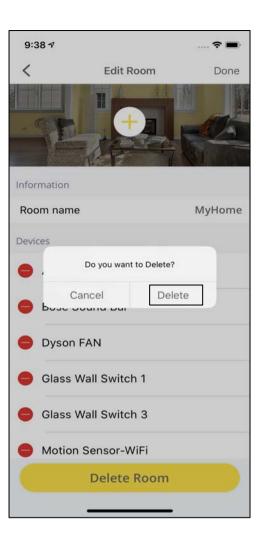

Select the **Rooms** that has your devices by clicking on it under the Rooms tab of Devices.

Click on the **Edit** at the top right corner of the screen.

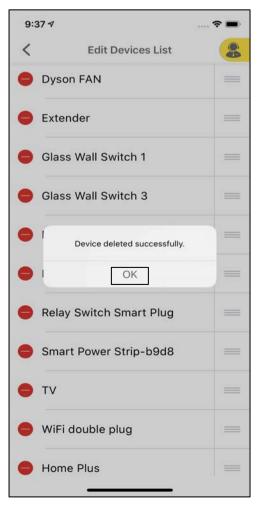

Click on Red "-" icon against the device that you want to delete.

A pop-up appears confirming that the Device has been deleted successfully.

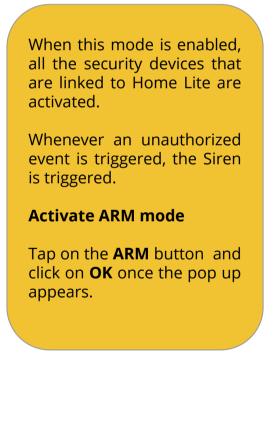

11.3 Security

Home Lite security feature has the following modes:

- ARM
- DISARM
- IN-HOUSE

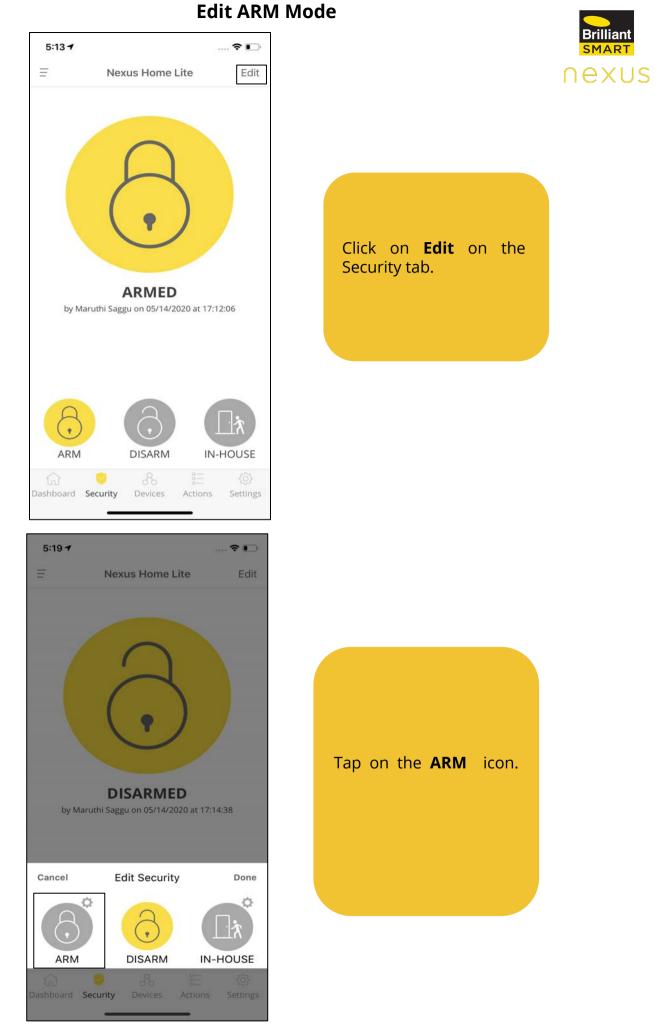

ARM Mode

In case of an intrusion, push notifications are sent to all devices that are logged into the Nexus Home App and SMS notifications are sent to upto 9 contacts.

You must install security devices like door sensors, motion sensors, sirens etc. for using this feature effectively.

	🕈 🕞
ARM	
	0

Time Delay Setting is a countdown timer, in order to switch from one security mode to the other when selected. Default time delay is 10 seconds.

DISARM Mode

When this mode is enabled, all the security devices connected to the Hub are disabled. Siren is disabled and notifications are turned "OFF" in case of any intrusion or threat.

Activate DISARM Mode

Tap on the **DISARM** tab and click on **OK** once the pop up appears.

IN-HOUSE Mode

This is a custom security mode which allows the user to select the desired devices to be activated. The selected devices will trigger the alarm in case of an intrusion while you are at home.

Activate IN-HOUSE Mode:

Tap on the **IN-HOUSE tab** and click **OK** once the pop up appears.

Edit IN-HOUSE Mode

Click on **Edit** on the top right corner of Security tab.

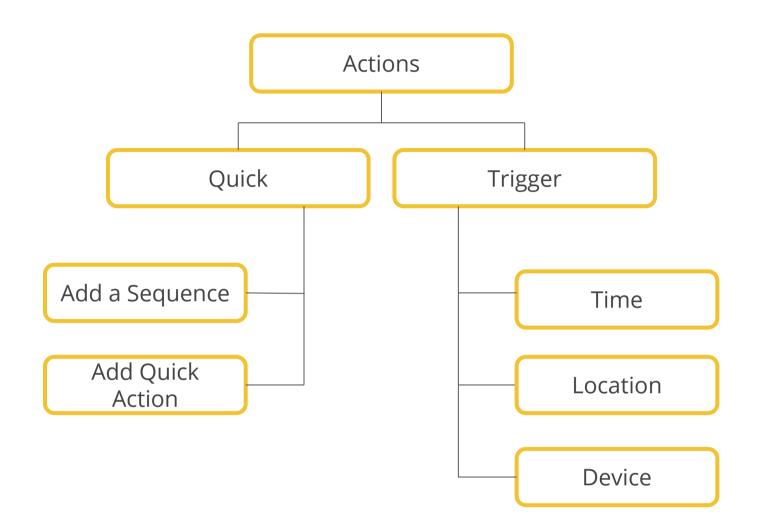

Tap on the **IN-HOUSE** icon.

5:20 🕈		🕈 🕞

Select a desired Hub from the list. **Note:** You can only control the devices which are connected to the selected Hub.

A screen appears "Linking your Brilliant Smart Home Account". All Devices and Actioned in your account will be available in the HOME Page.

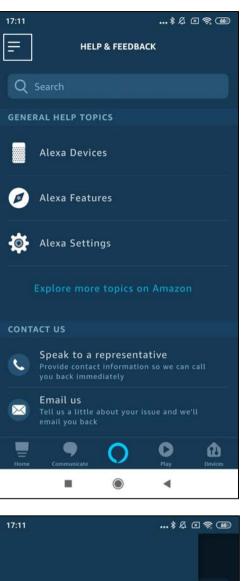

Now return to the home screen in your Google home app, tap the mic icon at the bottom & say "Ok Google, turn ON/OFF device_name".

Google Home will not recognize the rooms in the App. Please try to use other browsers if you face issues with Google Chrome browser while linking your Brilliant Smart account with Google Home.

12.2 How to link Amazon Alexa to Home Lite

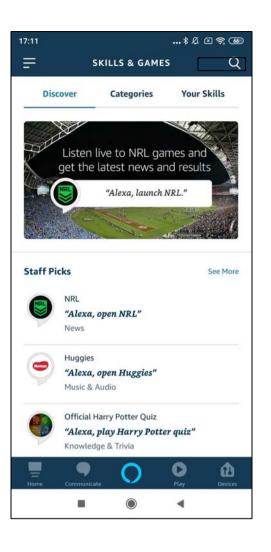

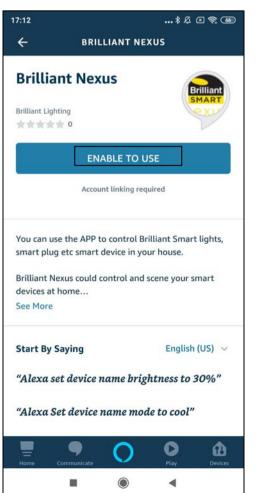

Add Device Lists Reminders & Alarms Contacts Routines Things to Try Skills & Games Activity Help & Feedback Settings After setting up your Hub, open ALEXA app & tap menu icon at the top left corner.

Tap Skills & Games.

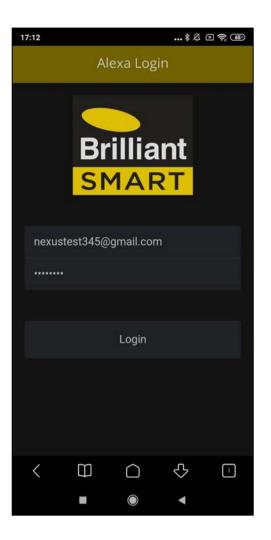

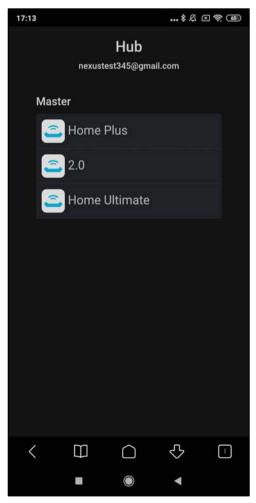

Tap the Search icon at top right corner of the screen and search for **Brilliant Nexus**.

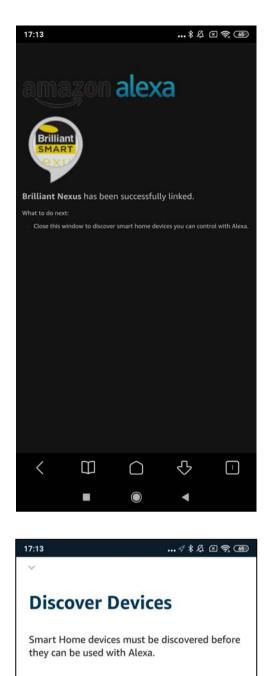

Enter your Nexus Home App credentials & tap Login.

Select the desired Hub from the list.

Brilliant Nexus is now successfully linked. Now, go back to Alexa Home Screen.

After successfully linking the skill a screen appears Discover Devices tap **"Discover Devices**".
