

Audio versions of BE dressage tests – a GREAT learning aid.

Relax! Enter the dressage arena with your test locked into your subconscious.

Then you can just ride it!

The Dressage Master audio versions of the British Eventing dressage tests help riders of all levels to learn the tests in a way that makes them effortlessly easy to remember. Listen to the test, called in real time to the beat of a metronome, drawing out the pattern it creates, while you visualise yourself riding the movements in the arena.

Download the recordings onto an MP3 player or Smart Phone to learn or to revise the test wherever and whenever you want, even when practicing on your horse. All current BE tests are available in audio versions, grouped into the sets: BE 90: BE 100: BE Novice: Intermediate & AI: Advanced & AI.

Orders can be placed through www.dressage-master.com where you will find full details and listings of the available tests.
