6.3.9.5

~~Refusal. A Horse refuses an obstacle in excess of 30cms in height if it stops in front of the obstacle or the element to be jumped; if the Competitor redoubles his efforts without effect, or the Horse is re-presented at the obstacle, after stepping back or steps back again, that is a second refusal and so on;~~
 At obstacles 30cms in height or less, a Horse refuses if it stops in front of the obstacle or element to be jumped. A stop followed immediately by a jump from standstill is not, at this type of obstacle, a refusal, but if sustained or prolonged, that is a refusal. A step backwards is a refusal, whereas a sideways step is not;

	<p>Refusal.</p> <ul style="list-style-type: none"> • Obstacles in excess of 30cm. If a horse stops, i.e. is no longer moving forward, in front of such an obstacle or element to be jumped, that is a refusal. The rider should turn his horse away and re-present at the obstacle. If the horse stops again, that is a second refusal, and so on. Jumping, or trying to jump, an obstacle of this kind from a standstill is likely to constitute dangerous riding (see Rules 5.6 and 3.8.1.4) and may be penalised accordingly. • Obstacles of 30cms or less. The Rules are different in respect of these obstacles. If a Horse stops in front of such an obstacle or element to be jumped and the stop is sustained or prolonged, that is a refusal. A stop or a sideways step, followed promptly by a jump, is not a refusal at this type of obstacle. However, a step backwards is a refusal."
<p>6.3.9.6</p>	<p>Run-out. A Horse is considered to have run out if, having been presented at an element or obstacle on the course, it avoids it in such a way that either the head, neck or either shoulder body of the Horse (head, neck, shoulders and pelvis – legs are not included) fails to pass between the extremities of the element or obstacle as originally flagged. Continuing on course without re-presenting will incur elimination. Note: A Horse will be considered to have cleared the fence when head, neck and both shoulders of the Horse pass between the extremities of the element or obstacle as flagged. The Horse will have successfully negotiated the fence, if the body of the Horse (as defined above) has passed the fence as originally flagged (i.e. the body but not all the legs are inside the flag is considered clear). A Competitor is permitted to change his mind as to where he jumps an obstacle or element at any time, without penalty, including as a result of a mistake at a previous element or obstacle. If, however, the Horse avoids part of the obstacle at which it has been presented, it will be considered to have run out.</p>
<p>6.3.9.7.2</p>	<p>At an obstacle composed of several elements (A, B, C, etc.), a Horse will be penalised once it has jumped the first element and before it has jumped the last element if:</p> <ul style="list-style-type: none"> a) It passes around the back of any element of the lettered combination that it subsequently jumps. b) It crosses its tracks between the elements. <p>if it passes around the back of the subsequent element, circles, or crosses his tracks between subsequent elements.</p>
<p>6.3.9.9</p>	<p>Combination obstacles.</p> <ul style="list-style-type: none"> • After more than two penalised attempts to jump an obstacle a Competitor will be eliminated; • A Horse may be re-presented at any element which he has already jumped if he has refused at a later element, but the penalty stands; • For the purpose of retaking any element a Competitor may pass through the flags in the wrong direction as long as there is no significant jumping effort;
