

First Base[®] Bump Cap

Setting a trend in style and head protection

Bullard has combined the style appeal of a standard cap with the safety of an inner liner to create a bump cap that protects against minor bumps and scrapes.

The First Base Bump Cap is a ventilated cap with six sewn eyelets, LDPE liner, and foam pad for added comfort. It is the perfect choice for a variety of environments:

- Automotive Service Center
- Transportation
- Distribution Centers
- Golf Course Maintenance
- Aviation
- Security
- Food/Beverage Processing
- Maintenance
- Where bump and scrape head protection is useful

NOTE:

This bump cap is not a safety helmet and not intended for use where ANSI approved head protection is required. It is not intended for use as a baseball safety helmet or other sporting event equipment.

SAFETY. SINCE 1898.™
