ISOHERM®

Protect Healthcare Workers from Heat Stress

Isotherm vests can help reduce the chance of heat related fatigue and sustain comfort in difficult work environments.

Energizing Your Cool Packs:

Submerge the cool packs in ice water or cold water for 10-15 minutes and then it will remain at the constant of 13°C for up to 4 hours.

Cool Packs
(2 pieces)

Cleaning and Storage:

- Hand wash the cool vest fabric carrier in mild soap and water
- Lay flat or hang to dry
- Store packs inside vest to avoid UV exposure
