

Bullard Head Protection

SAFETY. SINCE 1898.™

www.bullard.com

ABOVEVIEW™

See What You've Been Missing

Featuring a see-through visor that allows workers to see hazards overhead, the AboveView™ Hard Hat increases a worker's peripheral view by 50%. The hat is designed with a wide brim for increased protection from the elements and comes equipped with accessory slots for a variety of attachments.

AboveView features include 3/4" suspension, large absorbent cotton or easy-to-clean vinyl brow pad, and Flex-Gear® ratchet suspension.

AboveView is the only hard hat offering replaceable visors in clear, grey, and yellow tints. Made from high-density Polyethylene, AboveView meets ANSI/ISEA Classification Z89.1, Type I, Class E & G requirements and CSA Z94.1, Type 1, Class E & G requirements.

THE
PREMIER
SERIES

**DESIGNED
INDUSTRIAL TOUGH**

A century of head protection innovation defines the Bullard CEN10™ Helmet, expertly designed to give wearers the highest level of protection, comfort, reliability, and toughness. CEN10 is advanced head protection for the industrial worker.

Featuring sleek, low-profile vented and non-vented designs, quick adjusting FlexGen suspension system, 3-point chinstrap, and an impact-resistant helmet shell with inner foam comfort liner, the CEN10 is the perfect industrial-designed helmet for all workers, especially those working at heights.

CEN10 blends Polycarbonate and ABS materials for optimal protection. CEN10 meets ANSI/ISEA Z89.1, Class E & G requirements. Vented model meets ANSI/ISEA Z89.1, Class C requirements.

THE CLASSIC SERIES

American Made Since 1919

The foundation of the Bullard head protection product line is a selection of classically styled models. Designed with a wide-profile and brim, Classic hats and caps enhance ventilation, provide increased protection from the sun and rain, and offer greater comfort for outdoor workers.

The extra-large C34 accommodates larger heads and provides 12.5% more interior space and increased airflow. Models come with 6-point, self-sizing Pinlock or Flex-Gear® ratchet suspension system.

Made from high-density Polyethylene, Classic hats and caps meet ANSI/ISEA Z89.1, Type I, Class E & G requirements. Models C30 and C33 also meet CSA Z94.1, Type 1, Class E & G requirements.

THE
STANDARD
SERIES

Setting the Standard Style

The Standard Series by Bullard takes style and comfort to a new level. A low-profile shell with a look workers prefer, Bullard's 3-Rib design, and comfort suspension define the Standard Series.

Lightweight and trim, the Standard style hats feature a low center of gravity for exceptional balance and are available in flat-front, cap, vented, and full-brim models. Models come with a 4-point, self-sizing Pinlock or Flex-Gear® ratchet suspension system offering wearers comfort with a snug fit.

Made from high-density Polyethylene, models S51, S61, and S71 meet ANSI/ISEA Z89.1, Type I, Class E & G requirements. Vented model S62 meets ANSI/ISEA Z89.1, Type I, Class C requirements. Model S51 also meets CSA Z94.1, Type 1, Class E & G requirements.
