EVA POWERED AIR-PURIFYING RESPIRATOR

SAFETY. SINCE 1898.™

BUILT-IN HANDS-ON EXPERIENCE

EVA represents cutting-edge Powered Air-Purifying Respirator (PAPR) technology and design. Offering workers a comfortable and reliable respirator system, EVA complies with DIN EN12941 and was engineered with direct input from end-users and experts from the field. The result:

An advanced and easy-to-use system. Ergonomically designed and featuring innovative technology developed by Bullard that automatically maintains constant air flow regardless of filter, filter loading or battery capacity.

HOOD RT SERIES

- Large panoramic lens for visibility
- No suspension required
- No fit test required
- Constructed of DuPont™ Tychem® 2000 or 4000
- APF 100 (EU)
- Optional peel-away lens cover

BREATHING TUBE

- Easy to connect
- Flexible for maximal mobility
- Optional breathing tube cover available for easy decontamination

BLOWER WITH FILTER

Filter for pharmaceutical manufacturing, healthcare, painting and coating applications:
High Efficiency Particulate Air (HEPA) protection:

- P3/ R/ SL (PAPRFC3)

Combination cartridge with High Efficiency Particulate Air (HEPA) protection, Organic Vapor (OV) and Acid Gas (AG) protection.

- A2/ P3/ R/ SL (PAPRFC4)

Bullard provides third-party testing to customers, providing documentation on APF that is scientifically valid and legally defensible.

INTEGRATED ALARMS

Two distinct audible alarms, notifying wearer of low battery and low air flow – sound designed to travel through breathing tube directly to wearer's ear.

VISUAL FUEL GAUGE

Easy-to-read fuel gauge allows wearer to check battery status and remaining capacity while wearing EVA.

FILTER LOCKING TAB

Single-click installation: filter locking tab with visual indication and audible click ensuring filter is in place.

TWO-SPEED OPERATION

Features a two-speed blower, allowing the user to choose more or less cooling and air flow.

FILTER OPTIONS

Easy-to-install filters:

- HEPA
- HEPA + Organic Vapors + Acidic Gases

EVA is powered by a 10,000-hour brushless motor designed for long-term reliable use.

QUIET OPERATION

The EVA blower eliminates excessive noise common with some PAPRs.

DISTINCTIVE ERGONOMIC DESIGN

Maximum comfort: streamlined form eliminating bulky corners digging into wearer's back, balancing unit weight for maximum comfort.

CONTOURED BELT

The chemical resistant belt is easy to clean and is available in two variations and sits comfortably on the hip.

ACTIVE FLOW TECHNOLOGY

Active Flow Technology automatically responds to a wearer's need for more or less air flow. This intelligent system is continuously working to maintain constant air flow, regardless of filter, hood type, filter loading, or battery capacity.

DURABILITY

EVA is powered by a long-lasting 10,000-hour brushless motor. Unlike other motors that can quickly wear out, this durable brushless motor is designed for long-term reliable use.

ORDERING INFORMATION

EVA BLOWER

EVA1	PAPR EVA Blower Unit (filter not included)
EVABAT1	PAPR EVA Battery Li Black
EVASMCEU	PAPR EVA Charger, Single Port, European Cord
EVASMCEUK	PAPR EVA Charger, Single Port, United Kingdom Cord
EVASMCP5	PAPR EVA Power Supply Single Port Charger
PA1AFI	PAPR EVA Air Flow Indicator
EVABELT1	PAPR EVA Belt Standard Comfort, Closed Cell Foam
EVABELT2	PAPR EVA Belt Decon, Urethane/Vinyl - easy to clean
EVAEXT1	PAPR EVA Belt Extension for EVABELT1 or EVABELT2

EVA FILTER

PAPRFC3	PAPR EVA P3 R SL Filter, White, 6 pack
PAPRFC4	PAPR EVA Filter A2 P3 R SL Filter, White/Brown, 6 pack
PAPRPF2	PAPR EVA Pre-Filter for PAPRFC4, 120 pack
PAPRPFCOVER2	PAPR EVA Pre-Filter Cover for PAPRFC4, 3 pack

LOOSE-FITTING HOODS* AND ACCESSORIES

*TH3 UNLESS NOTED

RT3	RT Hood DuPont™Tychem® 2000 QC Double Bib Sport Neck, extra large lens, Clamp, TH3
RT4	RT Hood DuPont™Tychem® 4000 SL Double Bib Sport Neck, extra large lens, Clamp, TH3

EVA BREATHING TUBES & ACCESSORIES

PA1BT	Breathing Tube Standard Length 26" Clamp Connector For CC20 Hood and RT Hood
PA1BTS4	Breathing Tube Seal, 4 pack
S18051	Breathing Tube Clamps White, 10 pack

LOOSE-FITTING HOOD LENSES & COVERS

RTLCL	RT Mylar Lens Cover Clear 25 pack
--------------	-----------------------------------

EVA PAPR ACCESSORIES (COMFORT, CLEANING, SPARE PARTS)

EVABUCKLE	PAPR EVA Belt Buckle Replacement for EVABELT1 or EVABELT2
EVABP1	PAPR EVA Belt Backplate Replacement for EVABELT1
EVABP2	PAPR EVA Belt Backplate Replacement for EVABELT2
EVALLKIT	PAPR EVA Belt Backplate Lever Lock Kit (3 levers, 3 washers, 3 screws)
PAPRSC2	PAPR EVA Shower Cap for PAPRFC3 filter, 3 pack
PAPRSC3	PAPR EVA Shower Cap for PAPRFC4 filter, 3 pack
EVADCQC1	PAPR EVA DuPont™Tychem® Dust Cover for PAPRFC3 filter
20QCBTC	PAPR Breathing Tube Cover Tychem 2000
EVACAPBLK	PAPR EVA Storage Cap Black 3 pack
EVACAPRED	PAPR EVA Storage Cap Red 3 pack
PAPRFC4ICP	PAPR EVA Storage Cap Inlet Side for filter PAPRFC4
PAPRFC4OCP	PAPR EVA Storage Cap Outlet Side for filter PAPRFC4
PAPRBAG	PAPR Duffle Bag Vinyl Green 22"
PPEBAG	PAPR Duffle Bag 11" W x 13" H x 25" L Roller Black

EVA SYSTEM (EVA, BLOWER, BATTERY, CHARGER, BREATHING TUBE, AIR FLOW INDICATOR, STANDARD COMFORT BELT EVABELT1 AND HOOD)

EVART3EN (EVART3UK for UK charger)	Blower, Battery, Charger, Air Flow Indicator, Standard Comfort Belt EVABELT1, Breathing Tube, RT3 Hood Tychem®2000
EVART4EN (EVART4UK for UK charger)	Blower, Battery, Charger, Air Flow Indicator, Standard Comfort Belt EVABELT1, Breathing Tube, RT4 Hood Tychem®4000
