

Introducing UST™-LW: Super Lightweight Traditional Style Fire Helmet

The newest member of the UST Fire Helmet Series. So light, you may forget you're wearing it! Engineered Bullard Tough - for firefighters, by firefighters.

LIGHTWEIGHT COMFORT

- Now one of the lightest on the market, ranging from 49.3 oz (1.3 kg) * to 54.4 oz (1.5 kg) **
- Advancements in fiberglass composite shell provides up to 10 oz (300 grams) in weight reduction without compromising protection
- New super matte finish available in black, red, white, and yellow

INTEGRATED VISOR

- ReTrak® (optional) easily accommodates eyewear and features a simple one-handed operation
- Comfortably adapts to facial features without adding pressure

SAFETY AND PROTECTION

- Meets and exceeds NFPA 1971, Standard on Protective Ensemble for Structural Firefighting and Proximity Firefighting, Pertaining to Structural Fire Helmets
- Molded nylon inner liner with polyurethane foam thermal barrier provides impact protection and resistance to internal heat rise

BE ILLUMINATED

- TrakLite® integrated lighting (optional) features eight forward-facing, long lasting LED lights

STAY SMART

- Easily removable cotton ratchet cover, brow pad and ear/neck protector for cleanability and decontamination

CUSTOM COMFORT

- Proprietary U-Fit headband system with 36 different adjustment settings

SHOW-STOPPING ACCESSORIES

- Intricately carved brass eagle or Canadian maple leaf for leather front adornment
- Handcrafted leather fronts

"I only put my crew in Bullard because I know Bullard will keep them safe and get them home to their families."

- Chief Sanders, USA
