THE LARGEST HOMES ON THE ESTATE

Ten detached villas stand on fenced plots of 250 m². A double-height living room forms the heart of the house, with the kitchen and dining opening to a side terrace and a study nook off the hall. Five bedrooms each have their own bathroom or shower room, the master suite with a dressing room and a front balcony. A helper's room and a guard house with its own WC are built into the plot boundary.
