Evolution
Designed to adapt

Evolution

Designed to adapt

Offering the ultimate in comfort, practicality and versatility, the Evolution range by Entrawood was developed after extensive research to increase workplace efficiency and human interaction.

Designed to ever-changing workplace requirements, our range is the result of constant shaping and reshaping of ideas to suit your needs, not only as they are today, but as they change into the future.

A sophisticated range of office desking, screening and storage that is easy-to-assemble, easy to store, cost and space effective.

A versatile range

The key to the Evolution range is its simplicity and versatility.

We've refined and crafted our product offering to take full advantage of the available office space, optimising the flow of people and information.

Whether your office culture harnesses the power of collaboration or requires the focus of individuals, the Evolution range adapts to your needs.

Reap the benefits of an open plan workplace through quick and direct information exchange, knowledge and skills transfer. Let ideas flow freely to support a culture of co-creation working towards a common goal.

Smart and stylish

Clean lines, neat and practical storage and cable management solutions will streamline any office space.

This modular range provides endless possibilities that can adapt and grow with your business over time.

In response to the need of interior designers and space planners to create a custom solution for every client, we created the very versatile Evolution Screen.

The Identity panels serve as the ideal canvas to brand an office space and give it an identity that is aligned to the companies' unique culture and character.

■ EXECUTIVE

Our 2 000 x 1 200 Executive Steel Desk has been designed as a stand out item in an open plan office.

Meeting tables can be added to provide a more secluded area for private discussions within the Executive Office. Extension Arms and mobile storage can be added to further enhance practicality.

■ BENCH WITH TALL-BOY

A benching system with storage that is both lockable and can transform each workstation into a semi-private cubicle.

The Tall-boy drawer pulls out, giving access to a shelf that fits lever arch files, one standard drawer and one deep filer drawer, a pen and pencil tray as well as a CPU cavity.

■ CALL CENTRE OPTIONS

The evolution range offers two call centre options: The *standard benching* with no storage and the *Slim-line call centre* with shared "slim" pedestals offering temporary lockable storage for personal items.

Ideal for a hot desking or call centres where different employees occupying desks throughout the day. Desks are placed in sequence and screens can be added as divisions between workstations.

■ MANAGERIAL

Managerial set-up consists of a 1 800 x 900 free-standing desk with localised lockable storage.

The Evolution Managers desk is deeper (900mm) to accommodate visitors sitting across the table.

Storage options include an extension with a desk height pedestal, a pedenza or credenza.

■ BENCH WITH MULTI STORAGE

The Multi-storage system desking places 2 or more employee workstations adjacent to one another, typical in an open plan office space. The main aim is optimise the available space by arranging as many desks as the space allows in sequence with ample secure and localised storage.

Evolution straight and dual desks can be used in conjunction with the Multi-Storage units. Alternatively, a 2 700 Bench with Multi-Storage on the outside of the desk can create a 4-way setup.

■ SLIM-LINE BENCHING

The Slim-line is identified by it's narrow or "slim" pedestals that form one of the legs of the desks.

Available in single or dual desk configurations, they can stand alone or be placed in sequence. The pedestals can fit two box files (but do not accommodate hanging files).

An elegant yet compact solution. The layout shows screens and open desk top boxes as partitions between workstations.

■ SPINE

The Evolution Spine system creates semi-private workstations for teams of employees.

A 2-way storage unit accommodates 2 desks (one on either side). Depending on the available space, these set-ups can be placed in sequence to create a 2 way, 4 way, 6 way 8 way and so on

The layout shows Single and Double Spine setups.

■ BENCH WITH MOBILE STORAGE

Benching with Mobile Storage optimises the available office space and the dual purpose mobile pedestal provides both storage and guest seating.

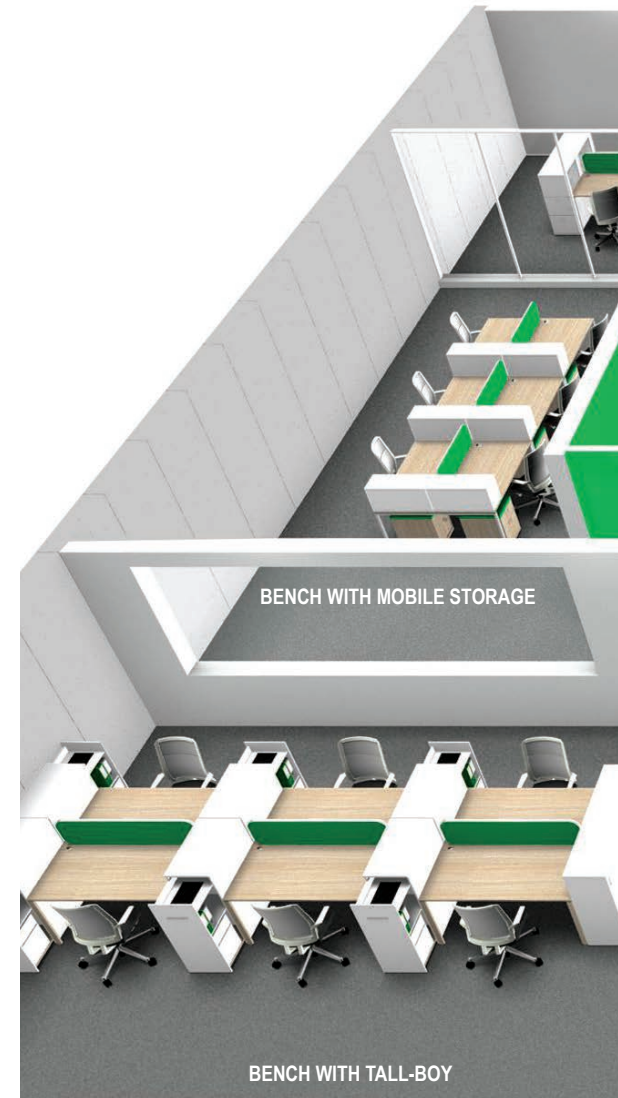

A highly adaptable and versatile solution, mobile pedestals and moveable Open Storage Boxes allow for easy configuration and setups and changes to set-ups as the office needs change.

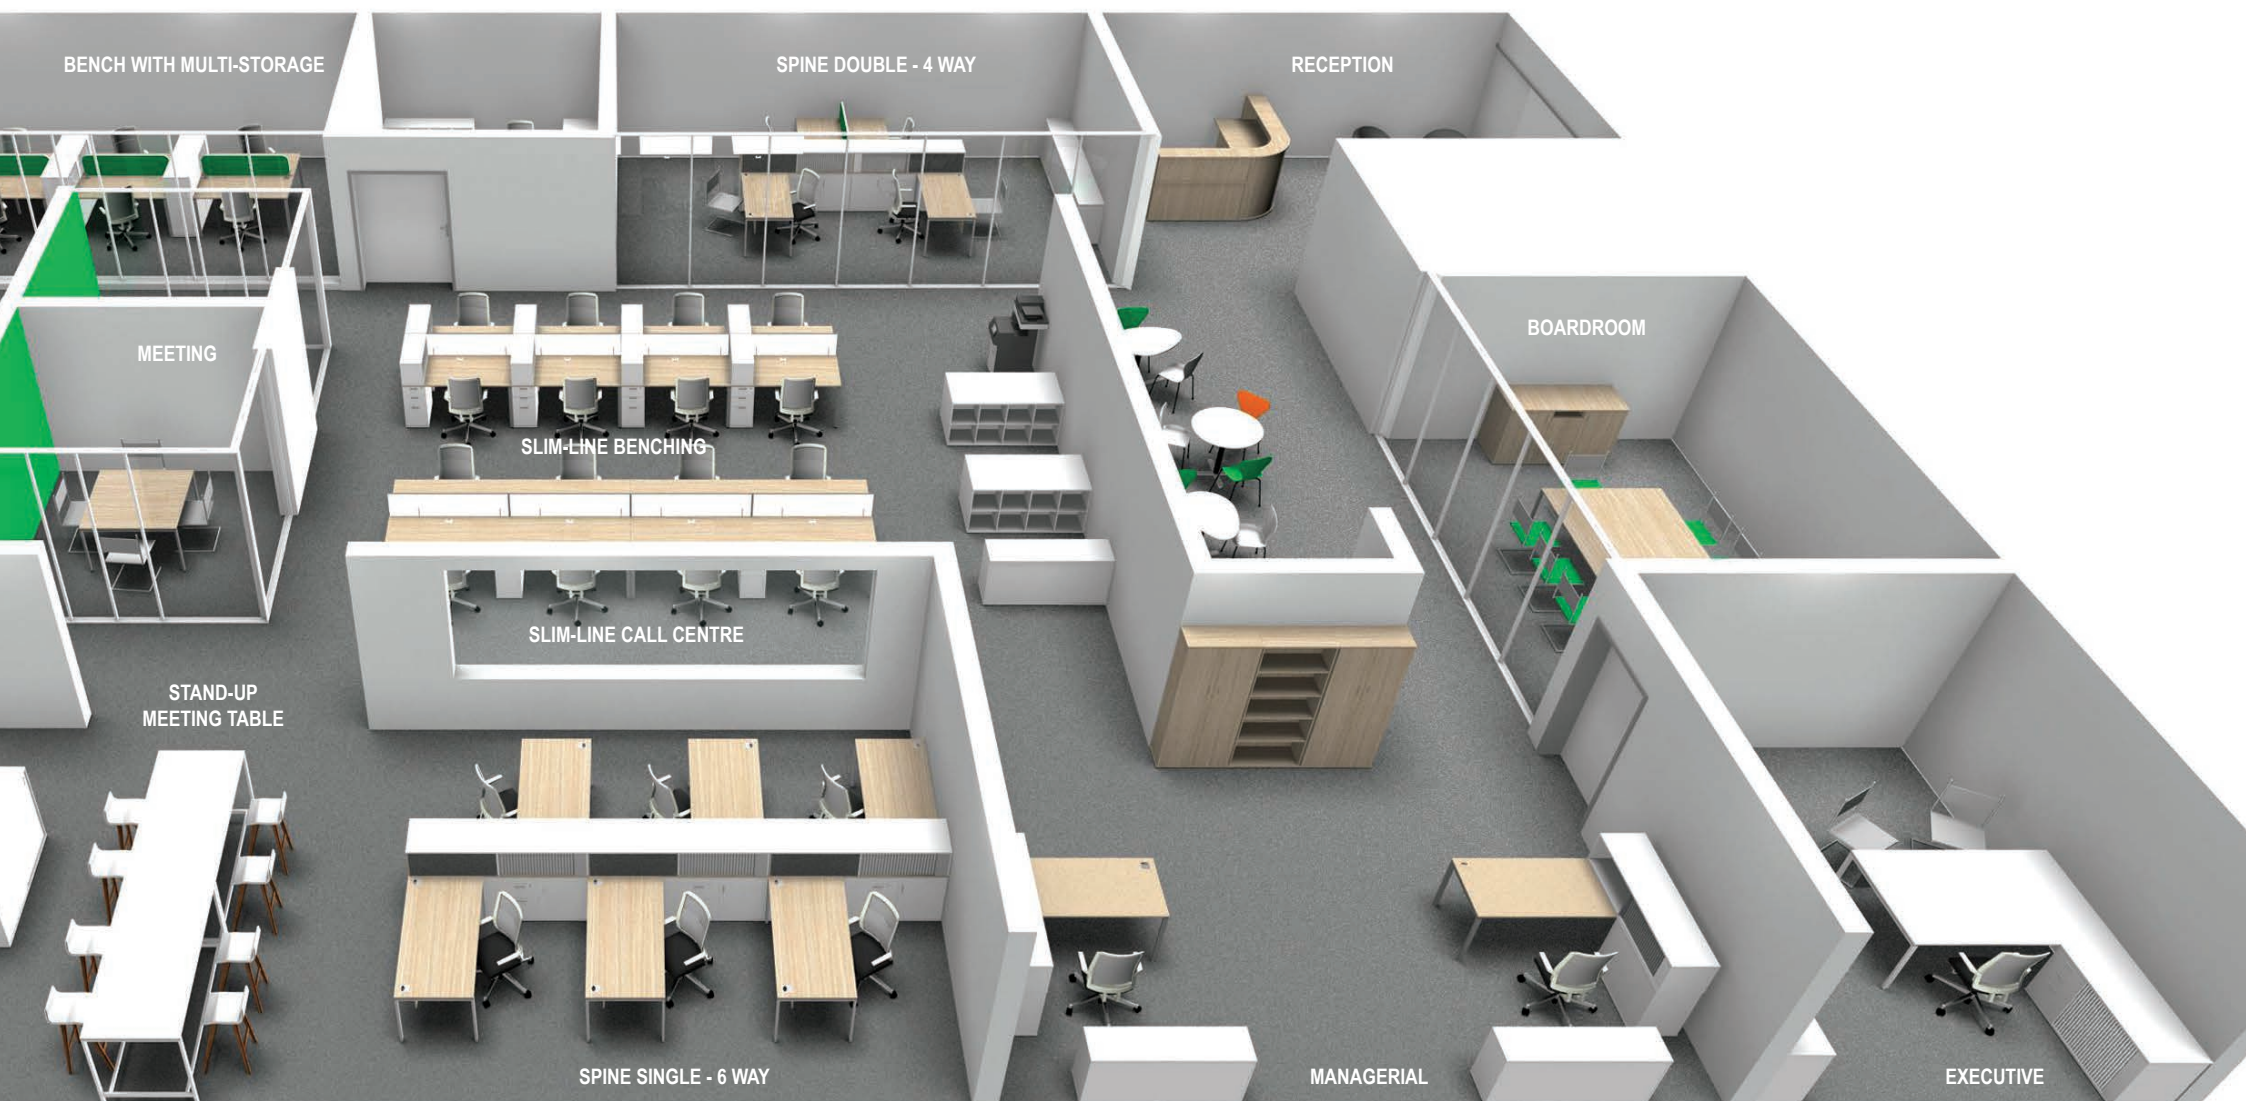

■ BOARDROOM & MEETING TABLES

The Boardroom setup seats 8 to 10 people, a Server Units, housing drinks, snacks and other accessories.

The meeting tables seats 4-6 people depending on size. They are ideal for team meetings or conference calls where there is limited space.

The New Stand-up meeting table accommodates 6-8 people standing or seated on bar stools. Ideal for quick meetings or focused meetings with high engagement levels.

- The Evolution Spine Storage System is the first storage unit of its kind in the country. It has been developed to be functional, practical, and at the same time, to have a new impact in office setups.
- The Spine offers a new way to create a layout in the office space. A single 2-way storage system offers storage for 2 persons, one on either side of the unit, for privacy and personal space.
- Spine units are available in either left or right-hand configurations offering open top or roller door storage.
- All storage units are standard with door and drawer compartments, and are fitted with the addition of a pull-out pen and pencil tray hidden in the top drawer as well as a pin board.

A Pin board

Pin boards are Standard with the Top Compartment and are on both sides of the unit. Grey Felt is the Standard Colour.

B Storage Bottom Unit

The bottom part of the unit consists of a Door Compartment with a single shelf, bottom deep drawer which can accommodate 2 box files, and a standard top drawer. Drawers are central locking with wooden box construction, and run along Ball Bearing Runners for smooth and easy opening and closing.

C Pen and Pencil Tray

A hidden pen and pencil tray is included in the Spine Top Drawer. It simply pulls out, and is located on its own set of drawer runners.

D Cable Management Ports

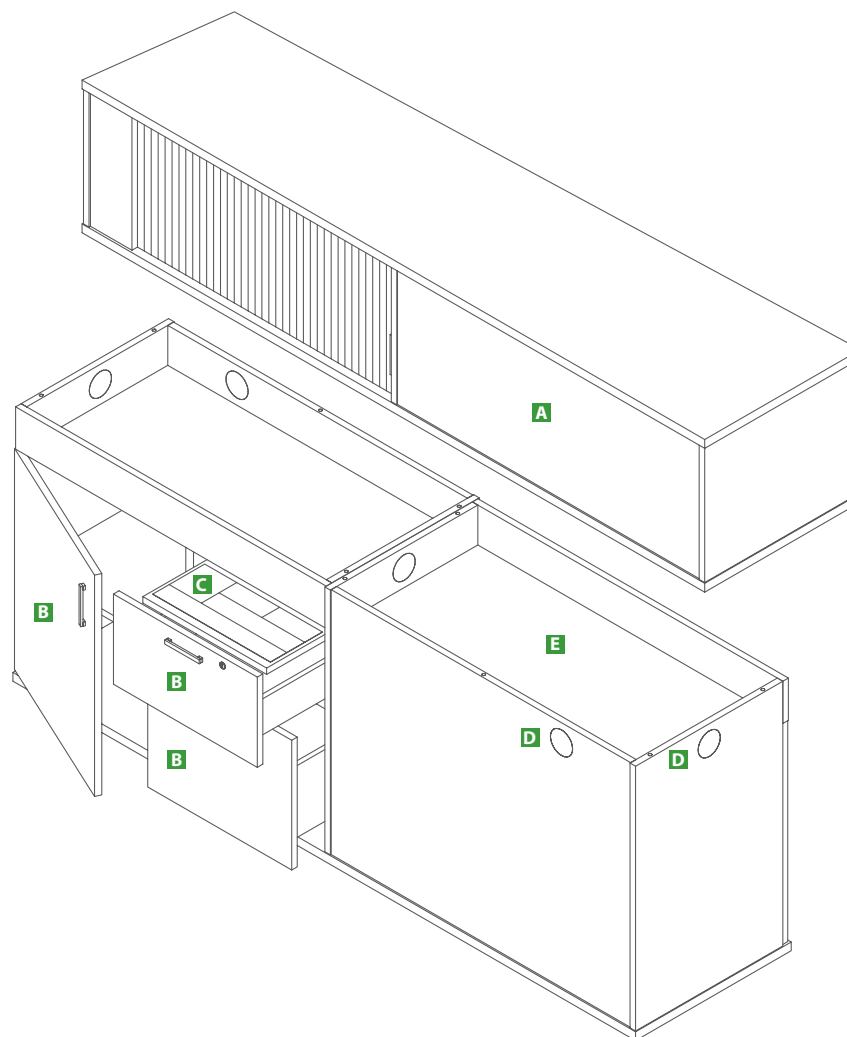

Cable Management ports are located on the sides, in the middle, and on the backs of the Spine. It allows for easy manoeuvrability for cabling input and outlet to branch out to the desks.

E Cavity

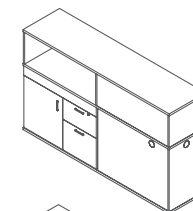

A Cavity space has been created on the Spine unit. It is ideal for Cabling Network to be placed through to reach desk areas. The cavity has been placed between the top and bottom for reticulation purposes and stows it out of sight.

Levelling Feet

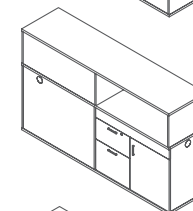

Each Spine unit features 8 Adjustable Levelling Feet. These are used to level the unit on uneven floors.
