1. ABOUT US

1. ABOUT US

Upgrading and Edge banding

Entrawood has its own melamine pressing plant, which means improved quality. Melamine is a versatile product that is ideal for use in the mass production of office furniture.

1.6 mm thick edging is applied with a high quality water resistant polyurethane glue.

PU Edge Bander

Warehouse management system and CNC drilling

Two beam saws with an automatic board handling and storage system organises, stores, collects and saws boards. The system increases productivity by reducing time spent on locating and moving boards for cutting while the air suction handling the boards results in fewer defects.

The BHX 055 has a quick-change drilling system and fast drilling speeds of about 1.6 drilling cycles each second.

Warehouse handling system

Assembly and Packaging

Entrawood uses computer aided manufacturing (CAM) and enterprise resource planning (ERP) software that was developed in-house to manage everything from quotations and order taking to cutting lists, and component specifications. After machining, inspection and quality control components are either assembled or wrapped in Entrawood's signature branded packaging.

Packaging

Our people

Entrawood and Entrakor employ 200+ people from local communities. All employees receive in-house training to ensure skills standards match our world-class facility.

We're proud to be a part of the Maluti Child Care Project, a feeding scheme for between 1,500 to 2,500 orphans under the age of 15 in the neighbouring communities of Harrismith. Find out more on our website.

Feeding Scheme

ISO 9001 : 2008 certified

Both Entrawood and Entrakor management systems are ISO 9001:2008 certified for the manufacturing of office furniture conducted by TNV Certification Pvt Ltd.

Manufacturing Guarantee

We pride ourselves on the quality of our products and the reliability of our services. Everything we do is backed up with our Entrawood 5-year manufacturing guarantee on factory faults and workmanship.

We promise a minimum of 90% local content - raw materials from, and manufactured in South Africa - on all our products.

Our Factories

Entrawood, a purpose-built 11000 m² facility, is located half way between Johannesburg and Durban in Harrismith. Together with Entrakor, a steel component and upholstery business, we have the capacity to produce up to 5000 furniture components a day.

Our Services

We do not supply the end user directly.

We offer assistance with office layout, planning, and space optimisation.

On-time deliveries, with a lead time of just 10 working days in Gauteng and 15 working days in all other areas within SA.

Our Showroom

We have created a space to not only showcase our latest and best selling products to offer you to bring your clients and show them around. Visit us at:

87 Capital Hill Commercial Estate
Cnr K101 and Le Roux Ave, Midrand
Gauteng, 1686

Product Gallery

On our website you can easily browse through all of our products and adjust the colours as you wish.

You are also welcome to save these images to use in your presentations.

Powder Coating

Powder Coating

Entrakor has recently installed a Jack de Rooij - Powder Coating Oven, to increase production allowing us to extend the curing time in the oven to improve the paint quality of our steel products. This combination oven can be powered by gas or electricity, reducing interruptions in production - we can ensure a consistent quality and service to our clients.
