

Children's Programming Guidelines

Children, parents, and volunteers will be asked Self-Check Health Assessment questions before entering the environment:

- Have you or any member of your household had any COVID-19 symptoms: *temperature above 100.4, fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea*
- Have you or any member of your household had any close contact in the last 14 days with someone with a diagnosis of COVID-19?

Before entering the Calvary Kids environment, temperatures will be taken, including volunteers. Only those with temperatures below 100.4 degrees Fahrenheit will be allowed to enter the Calvary Kids environment.

Each classroom will be limited to 50% capacity.

Social distancing will be encouraged when possible. Table and chair placement as well as designated places to sit on the floor during large group instruction will be used to enforce this.

All volunteers and staff will be asked to wear masks at all times, as well as children 9 years old and up.

Classrooms will not intermingle, even in a large group setting. Once a child is checked in, they will stay with their classroom until they are picked up.

Classrooms and toys will be sanitized between services, and all soft toys will be removed from the classrooms.

Check-in stations will be sanitized between services.

Hand sanitizer will be available at all check-in stations and in all classrooms. Kids will be encouraged to wash their hands often.

We are asking one parent to drop off and the same parent to pick up children from their classrooms.
