

1. Identification

Product identifier: SUPER ANTI-RUST GLOSS
Other means of identification: 858-8XX
Recommended use: Paint
Restriction on use: Any that differs from the recommended use
Supplier Name: Denalt
8620 Rue Pascal-Gagnon
Montréal, Québec
Canada, H1P 1Z1
Telephone: 514 328-2727
Emergency tel. number: 514 328-2727
Available hours: 8h00 - 17h00 Monday to Friday

2. Hazard identification

Signal word: DANGER

Product classification:

Germ cell mutagenicity - Category 1B. Carcinogenicity - Category 1A. Carcinogenicity - Category 1B. Reproductive toxicity - Category 1B. Aspiration hazard - Category 1.

Skin sensitization - Category 1. Skin sensitization - Category 1A.

Hazard statement(s):
H304 - May be fatal if swallowed and enters airways.
H340 - May cause genetic defects.
H350 - May cause cancer.
H360 - May damage fertility or the unborn child.
H317 - May cause an allergic skin reaction.

Precautionary statement(s)

Prevention: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist, vapours, and spray. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves, protective clothing, eye and face protection.

Response: IF SWALLOWED: Immediately call a POISON CENTER. Do NOT induce vomiting. IF exposed or concerned: Get medical advice. IF ON SKIN: Wash with plenty of water. If skin irritation or a rash occurs: Get medical advice. Take off contaminated clothing and wash it before reuse.

Storage: Store locked up.

Disposal: Dispose of contents/container in accordance with local, regional, national and/or international regulations in force.

Other hazards: No other effects shown.

See toxicological information, section 11

3. Composition / Information on ingredients

No	CAS No :	Common name and synonyms	Concentration % (w/w)
1	64742-88-7	Naphtha, medium aliphatic fraction C9-C12	14.55
2	64741-65-7	Naphtha, heavy C9-C12 alkylate fraction	10.65
3	64742-47-8	Naphtha hydrotreated, light fraction C9-C16	6.91
4	1330-20-7	Xylenes, (mixed isomers). Xylene (o, m & p isomers). Dimethylbenzene (mix isomers)	0.73
5	100-41-4	Ethylbenzene	0.48
6	14808-60-7	Silica crystalline. Silicon dioxide crystalline. Quartz	0.23
7	64742-82-1	Naphtha hydrodesulfurized, heavy aliphatic fraction C7-C12	0.16
8	136-52-7	Cobalt(II) bis(2-ethylhexanoate)	0.16
9	96-29-7	Methyl ethyl ketoxime. Butanone oxime. MEKO	0.16
10	22464-99-9	Zirconium(II) bis(2-ethylhexanoate)	0.16

4. First-aid measures

If swallowed, irritation, any type of overexposure or symptoms of overexposure occur during use of the product or persists after use, immediately contact a POISON CENTER, an EMERGENCY ROOM or a PHYSICIAN; ensure that the product safety data sheet is available.

Eye contact: Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention as soon as possible.

Skin contact: Remove contaminated clothing immediately. Wash the skin with soap and water. Thoroughly wet contaminated clothing. If irritation persists, consult a doctor.

Inhalation: Move exposed person to fresh air. Keep this person warm and lying down. Loosen tight clothing such as a collar, tie, belt or waistband. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Get medical attention immediately.

Ingestion: If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do not induce vomiting unless instructed by medical personnel.

Symptoms: No known symptoms.

Effects (acute or delayed): No known effect.

Immediate medical attention and special treatment: No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

5. Fire-fighting measures

Suitable extinguishing media: Use dry chemical, CO₂ or sand.

Unsuitable extinguishing media: Jets of water can facilitate the spread of fire.

Specific hazards arising from the hazardous product: No specific hazard.

Hazardous combustion products: None known.

Special protective equipment and precautions for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental release measures

Personal precautions: No action shall be taken involving any personal risk or if you do not have suitable training or protection. Evacuate surrounding areas. Do not touch or walk through spilled material. Shut off all heating and ignition sources. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).

Protective equipment and emergency procedures: Avoid dispersal of spilled material, runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution. Use inert absorbent or retention tubes in the event of a large spill.

Methods and materials for containment and cleaning up: Stop leak if without risk. Move containers from spill area. Contain leaks and pick up with non-combustible absorbent materials such as sand, earth or vermiculite. Then, place in an appropriate waste disposal container according to local regulations. Dispose of via a licensed waste disposal contractor.

7. Handling and storage

Precautions for safe handling: Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Avoid exposure - obtain special instructions before use. Avoid contact with eyes, skin and clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Conditions for safe storage: Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Incompatibility: None known.

8. Exposure Controls/ Personal protection

Control parameters:

IDLH: Immediately Dangerous to Life or Health Concentrations

NIOSH: National Institute for Occupational Safety and Health

OSHA: Occupational Safety and Health Administration

PEL: Permissible Exposure Limits

California / OSHA: California Division of Occupational Safety and Health

REL: Recommended Exposure Limits

ACGIH ®: American Conference of Governmental Industrial Hygienists

TLV ®: Threshold Limit Values

Appropriate engineering controls: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Individual protection measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eyes: DO NOT WEAR CONTACT LENSES. Wear anti-splash safety goggles.

Hands: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties.

Respiratory: If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Others: Wear protective clothing with long sleeves and appropriate safety shoes at all times.

9. Physical and chemical properties

Physical state: Liquid

Colour: Neutral

Odour: Naphta

Melting/Freezing point: < - 30 °C (-22 °F)

Initial boiling point/boiling range: 80 °C (176 °F)

Flammability: Yes

Lower flammable/explosive limit: Not applicable

Upper flammable/explosive limit: Not applicable

Flash point: 42 °C (107.6 °F) Closed cup

Auto-ignition temperature: Not available

Decomposition temperature: Not available

pH: Not applicable

Acid reserve: Not available

Alkali reserve: Not applicable

Kinematic viscosity: > 14 mm²/s (at 40 °C)

Solubility (in water): Insoluble

Partition coefficient – n-octanol/water (Log Kow): Not available

Vapour pressure: 2.0 - 3.0 mm Hg at 20 °C

Density and relative density: 1.082 kg/L at 20 °C (water = 1)

Relative vapour density: Not applicable

Particle characteristics: Not applicable

10. Stability and reactivity

Reactivity: Stable under recommended conditions of storage and handling.

Chemical stability: The product is chemically stable under normal conditions of use.

Possibility of hazardous reactions: No dangerous or polymerization reactions will not occur under normal conditions of use.

Conditions to avoid: No known data.

Incompatible materials: None known at room temperature.

Hazardous decomposition products: None known.

2	64741-65-7	Naphtha, heavy C9-C12 alkylate fraction	10.65	No	No	Yes
3	64742-47-8	Naphtha hydrotreated, light fraction C9-C16	6.91	No	Yes	Yes
4	1330-20-7	Xylenes, (mixed isomers). Xylene (o, m & p isomers). Dimethylbenzene (mix isomers)	0.73	No	No	No
5	100-41-4	Ethylbenzene	0.48	Yes	No	No
6	14808-60-7	Silica crystalline. Silicon dioxide crystalline. Quartz	0.23	Yes	No	No
7	136-52-7	Cobalt(II) bis(2-ethylhexanoate)	0.16	Yes	No	Yes
8	22464-99-9	Zirconium(II) bis(2-ethylhexanoate)	0.16	Yes	No	No
9	64742-82-1	Naphtha hydrodesulfurized, heavy aliphatic fraction C7-C12	0.16	Yes	Yes	Yes
10	96-29-7	Methyl ethyl ketoxime. Butanone oxime. MEKO	0.16	Yes	No	No

Degradability: N/A

Mobility in soil: N/A

13. Disposal considerations

Methods of disposal: The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

14. Transport information

	TDG	DOT	IMDG	IATA
UN Number	1268	1268	1268	1268
Proper shipping name	PETROLEUM DISTILLATES	PETROLEUM DISTILLATES	PETROLEUM DISTILLATES	PETROLEUM DISTILLATES
Transport hazard class(es)	3	3	3	3
Packing group	III	III	III	III

Canada - ERAP

Required from 10 000 L or kg

United States - Reportable Quantities (RQ)

No	CAS No :	Common name and synonyms	RQ lbs (kg)
1	1330-20-7	Xylenes, (mixed isomers). Xylene (o, m & p isomers). Dimethylbenzene (mix isomers)	100 (45.4)
2	100-41-4	Ethylbenzene	1000 (454)

Transport in bulk (according to Annex II of the International Convention for the Prevention of Pollution From Ships, 1973, as modified by the Protocol of 1978 (MARPOL 73/78), and the International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk (IBC Code)):

N/A

Marine pollutant: No

Exemption for limited quantity: None

Other exemptions: No other exemption.

Special precautions: Not applicable
