

# NEKTRA<sup>PRO</sup>®

## SAFETY DATA SHEET (SDS)

### Section 1. Identification

<b>Product identifier</b>	NEKTRA 114906 (Clear)_114907 (White)_55001628 (Black)
<b>Other means of identification</b>	None
<b>Recommended use and restrictions on use</b>	Sealant
<b>Initial supplier identifier</b>	Made and Packaged in Québec for NOVELCA 5355, Boul. des Gradins, Québec, CANADA G2J 1C8 T: 418 667-1313
<b>Emergency telephone number/restriction on use</b>	Canada – Handling 418 667-1313 9h-16h Canada – Transport CANUTEC 24 hour number 613-996-6666

### Section 2. Hazard identification

#### Classification of hazardous product (name of the category or subcategory of the hazard class)

Eye irritation (Category 2A)

#### Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)

#### Warning

H319 Causes serious eye irritation.

P264 Wash hands/nails/face thoroughly after handling.

P280 Wear gloves/protective clothing/eye protection/face protection.

P305 + P351 + P338 IF IN EYES, Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 If eye irritation persists: Get medical attention.

**Other hazards known** None

### Section 3. Composition/information on ingredients

Chemical name (common name/synonyms)	CAS number or other	Concentration (%)*
Siloxanes and Silicones	63148-62-9	15-40
Distillates (petroleum), paraffinic hydrotreated light	64742-55-8	5-10

\* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) by weight (except for gases/propellants by volume) considered trade secret(s).

### Section 4. First-aid measures

<b>Inhalation</b>	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical attention if you feel unwell. IF exposed or concerned: Call a doctor.
<b>Ingestion</b>	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.
<b>Skin contact</b>	IF ON SKIN: Rinse skin with water (5-10 minutes).
<b>Eye contact</b>	IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
<b>Most important symptoms and effects (acute or delayed)</b>	Causes serious eye irritation.
<b>Indication of immediate medical attention/special treatment</b>	In all cases, call a doctor. Do not forget this document.

### Section 5. Fire-fighting measures

**Specific hazards of the hazardous product (hazardous combustion products)**

Carbon oxides and other irritant/toxic gases and fumes.

#### Suitable and unsuitable extinguishing media

In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.

#### Special protective equipment and precautions for fire-fighters

During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

#### Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

### Section 7. Handling and storage

#### Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Do not breathe dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

#### Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

### Section 8. Exposure controls/Personal protection

#### Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: Dust – PEL-TWA 15 mg/m<sup>3</sup> (total dust) & 5 mg/m<sup>3</sup> (respirable fraction);

#### Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

#### Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. We recommend wearing chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact during all handling operations. We recommend wearing protective chemical splash goggles/safety glasses or other to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

### Section 9. Physical and chemical properties

Physical state	Solid (Paste)	pH	Not available
Colour	Various colours	Kinematic viscosity	Not available
Odour	Characteristic	Solubility	Insoluble
Melting/freezing point	Not available	Partition coefficient - n-octanol/water (log)	Not available
Initial boiling point/ initial/range	Not available	Vapour pressure	Not available
Flammability	Combustible @ high temperature	Density/relative density	1.04 g/ml
Upper and lower flammability/explosive limits	Not available	Relative vapour density	Not available
Flash point	> 93°C	Particle characteristics	Not available
Auto-ignition temperature	Not available	VOC	17.8 g/L (1.7%)
Decomposition temperature	Not available	Other	None known

### Section 10. Stability and reactivity

**Reactivity**

Does not react under the recommended storage and handling conditions prescribed.

**Chemical stability**

Stable under the recommended storage and handling conditions prescribed.

**Possibility of hazardous reactions**

None known

**Conditions to avoid (static discharge, shock or vibration)**

None known

**Incompatible materials**

Oxidizing materials; etc.

**Hazardous decomposition products**

None known

**Section 11. Toxicological information****Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)**

Causes serious eye irritation.

**Symptoms related to the physical, chemical and toxicological characteristics**

Eye irritation, redness, tearing;

**Delayed and immediate effects (chronic effects from short-term and long-term exposure)**

Skin Sensitization – No data available;

Respiratory Sensitization – No data available;

Germ Cell Mutagenicity – No data available;

Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA;

Reproductive Toxicity – No data available;

Specific Target Organ Toxicity — Single Exposure – No data available;

Specific Target Organ Toxicity — Repeated Exposure – No data available;

Aspiration Hazard – No data available;

Health Hazards Not Otherwise Classified – No data available.

**Numerical measures of toxicity (ATE; LD<sub>50</sub> & LC<sub>50</sub>)**

None;

ATE not available in this document.

**Section 12. Ecological information**

**Ecotoxicity (aquatic and terrestrial information)** No data available for this product

**Persistence and degradability** No data available

**Bioaccumulative potential** No data available

**Mobility in soil** No data available

**Other adverse effects** No data available

**Section 13. Disposal considerations****Information on safe handling for disposal/methods of disposal/contaminated packaging**

Dispose of contents/container into safe container in accordance with local, regional or national regulations.

**Section 14. Transport information****UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations**

Not regulated

**UN number; Proper shipping name; Class(es); Packing group (PG) of the 49 CFR (USA)**

Not regulated

**UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)**

Not regulated

**UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)**

Not regulated

**Special precautions (transport/conveyance)** None

**Environmental hazards (IMDG or other)** None

**Section 15. Regulatory information**

**Safety/health Canadian regulations specifics** Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).

**Environmental Canadian regulations specifics** Refer to Section 3 for ingredient(s) of the DSL

**Safety/health/environmental outside regulations specifics**

United States OSHA information: This product is regulated according to OSHA (29 CFR).

United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.

United States TCSA information: Refer to the ingredients listed in Section 3.

National Fire Protection Association (NFPA):

HEALTH: 1 FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.

HAZARD SCALE: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe

Proposition 65: This product does not contain a chemical known to the State of California to cause cancer or other reproductive harm.

**Section 16. Other information**

**Date of the latest revision of the safety data sheet** February 13, 2026 version 4

**Corrections** Section 1; 9;
