

Model: WeatherPRO PRORidge, model #6072MET

WeatherPRO Series PRORidge

Control the Weather

**AirFoil
Technology**

Description:

- Engineered with AirFoil Technology – based on the Bernoulli principle to maximize air lift
- Net free venting area of 18.3 sq-in per linear foot/118 sq-cm per linear foot
- Four pieces of WeatherPRO® PRORidge vent will ventilate 1000 sq ft of attic space (approx)
- Patented internal weather infiltration protection baffle system
- Roof pitch range 3/12 – 12/12
- 4 foot sections, 12 pieces per carton
- Latch connectors on each end, built-in end caps every 3 in/6 cm
- Injection molded from pure, high grade polypropylene with premium UV inhibitor additives
- Available for use with either Metric or Imperial size singles

**Approved
Certifications:**

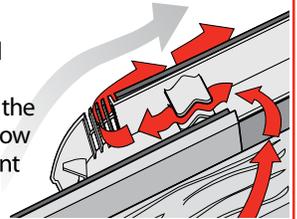

- CSA certified - Plastic Type C ridge vent, for installation on roof ridge

Durability: Engineered to resist denting, peeling, extreme heat and cold impact to -40

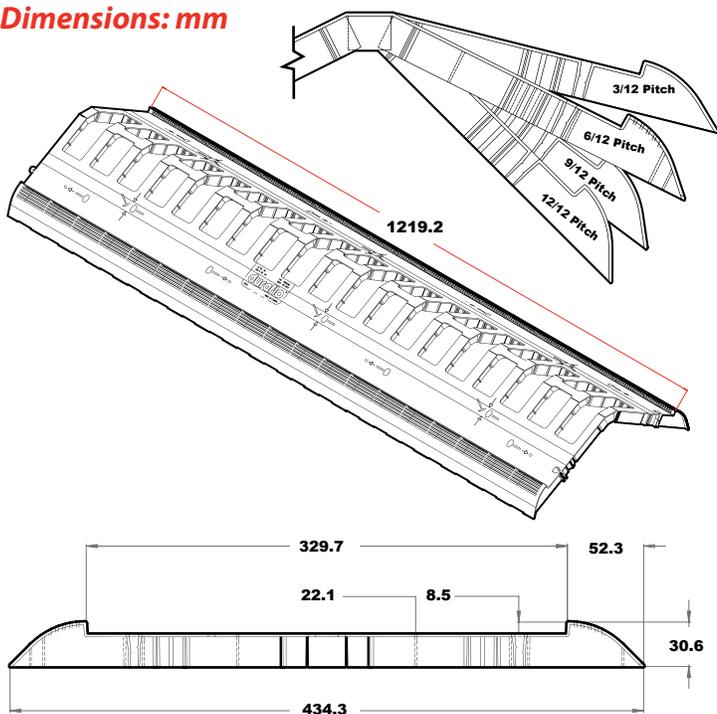

Colours: Black, Brown, Weatherwood

Weather Protection :

Weather PRO's patented internal **baffles** deflect water and snow, allowing it to drain harmlessly out the drainage openings. Designed to allow high airflow while providing excellent defense against weather infiltration.

Dimensions: mm

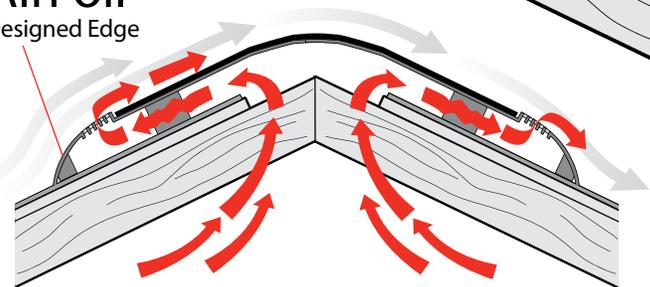

Shingles install into recessed top, allowing cleaner installation appearance while maximizing airflow over ridge.

Internal baffles and drainage openings easily deflect and direct away extreme weather.

**AirFoil
Designed Edge**

PRORidge Airfoil designed edge allows smooth airflow over the ridge line maximizing effective ventilation from the attic space while deflecting blowing debris.
