Gravity Latch With One-Sided Key Entry

1. Determine height of latch.

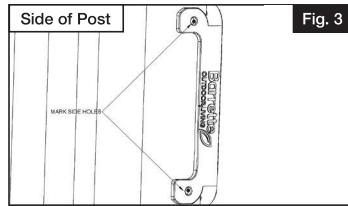

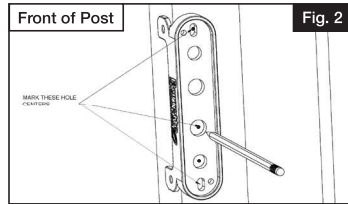

To obtain and review a copy of the warranty please visit: barretteoutdoorliving.com. You may also contact us at 1-800-336 2383 or email Cs.outdoorliving@ebarrette.com

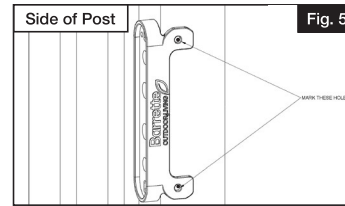

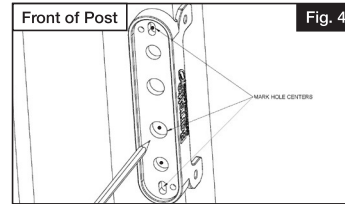

2.

Hold up outer bracket and mark three holes on the front of post (Fig. 2) and two holes on the side of the post (Fig. 3). For right-handed installation refer to Figures 4 and 5.

Left-Handed Installation:

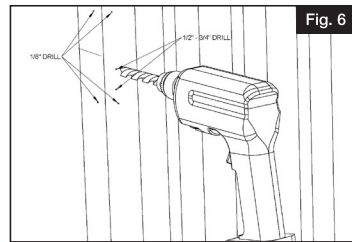

Right-Handed Installation:

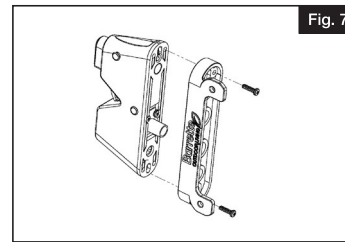

3.

Screw outer bracket to outer latch using small outer bracket screws (Fig. 6). Brackets are reversible and can go on either side of post depending on opening (Fig. 7).

Left-Handed Installation:

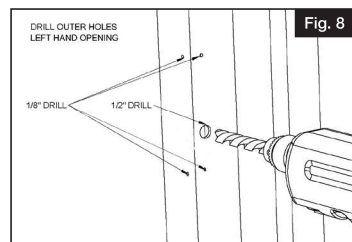

Right-Handed Installation:

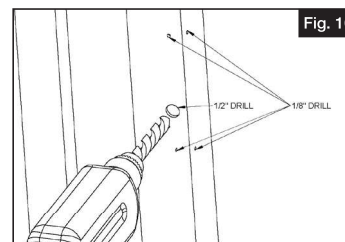

4.

Drill holes according to marks. See illustration for sizes (Fig. 8 and Fig.9). For right-handed installation refer to Figures 10 and 11.

Left-Handed Installation:

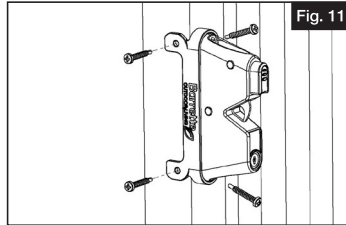

Right-Handed Installation:

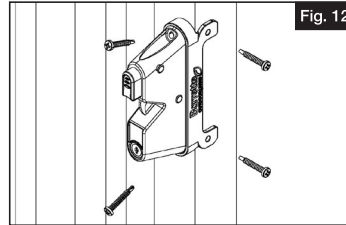

5. Install outer latch using large screws (Fig. 11). For right-handed installation refer to Figure 12.

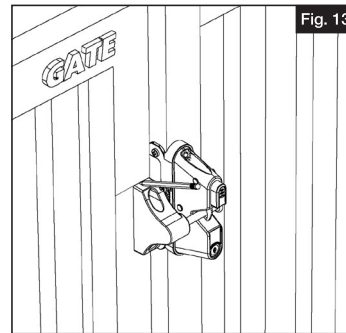

Left-Handed Installation:

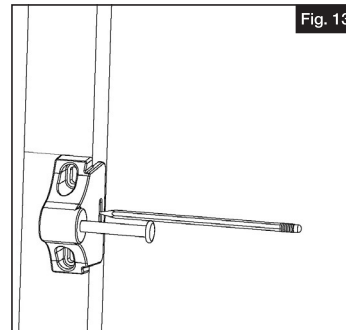

Right-Handed Installation:

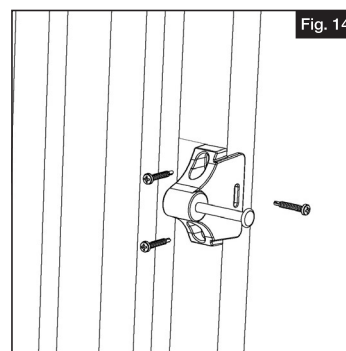

6. Line up striker on gate and attach in middle of latch. Mark a line to indicate the height (Fig. 13).

7. Unlatch striker to open gate. Re-align striker with line and mark holes on front and side (Fig. 14).

8. Pre-drill with 1/8" drill and then install striker with screws (Fig. 14). Check alignment with latch and adjust striker height if needed.
