Care

Instructions

Your furniture, if treated with respect and love, will last you a long time. Each piece requires light maintenance to maximize its longevity.

General Care

- Do not sit on sofa arms and/or back frame.
- Always move the sofa by lifting it at the base, do not drag.
- Avoid prolonged exposure to direct sunlight and keep sofa away from any heating source to prevent fading or discolouration.
- Using a brush attachment, vacuum the sofa regularly to remove any dust particles.
- Blot spills immediately and gently with a clean white cloth. Do not rub.
- Professional cleaning is advised for tough stains.
- Avoid sitting on the sofa when wearing clothing that may cause colour transfer.
- For removable cushions, flip, rotate and fluff the seat and back cushions regularly to prolong their lifespan and keep them plump.
- For non-removable cushions, to straighten folds and creases that form on cushions after prolonged use, smooth the surface with your hands and tuck any excess upholstery into the sides of the cushions.

Fabric Care

- Pilling may occur because of wear and tear and can be easily removed with a fabric comb or fuzz remover.

Velvet Care

- Brush the velvet pile regularly to reverse the effects of wear and tear that might temporarily crush the pile.
- To straighten light creases, set your steamer at a low heat setting and steam in the direction of the pile.

Metal Leg Care

- Keep legs always dry.
- Clean away dust or dirt with a soft, clean cloth.
- Do not apply harsh chemicals which may erode the finish.
- Use metal polish to maintain the shine of the metal. (Not applicable for power-coated metal leg)
