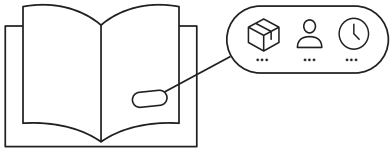
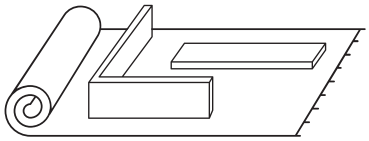
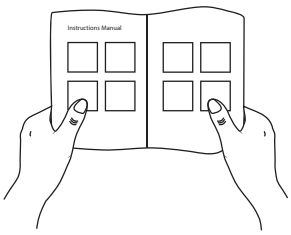
Before you start...



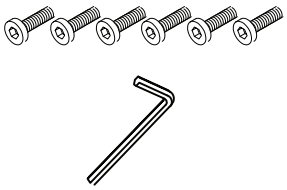
Check that you have received all cartons and familiarize yourself with the assembly requirements. This includes setting aside the allocated time required and having someone to assist you, if needed.



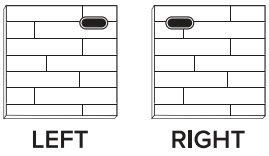
Ensure enough space for assembly. We recommend protecting your floor with a mat or cardboard to avoid scratches during the assembly process.



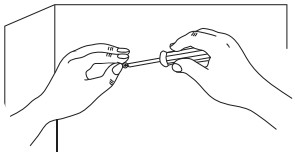
Read instructions carefully, and check that no parts are missing.



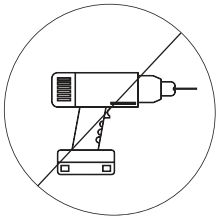
Lay out all hardware on a soft surface so you can easily identify them.



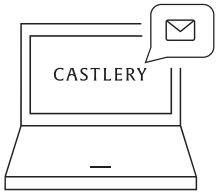
Carefully identify all components to differentiate which pieces are left and right.



Carefully install your new product following the instructions stated. Don't skip ahead!



DO NOT over-tighten screws or use a drill. This will damage the product.



If you need further assistance, please contact us via **www.castlery.com/contact-us**.

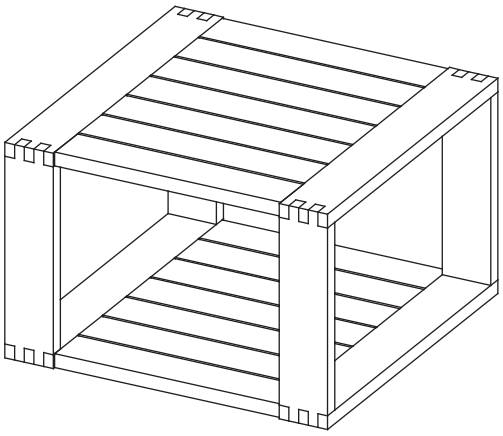
Finished!

Congratulations, we're almost there!
Please perform the following checks:

1. Have you tightened all the screws?

2. Are levelers in line with and touching the ground?



Always lift your Castlery product when moving it to your preferred location. Levelers (if any) may slant if you drag your product.

Finally, clean the product with a damp cloth.

You're all set! Enjoy your new living space, thanks to the addition of your Castlery product.

Note: Your actual product may have minor size differences due to manual measurements.

Care Instructions

Your furniture, if treated with respect and love, will last you a long time. Each piece requires light maintenance to maximize its longevity.

Do's

1. Clean the wooden table regularly with a dry, soft cloth.
2. Screws and bolts may loosen over time. Please check it regularly to tighten it.
3. Always use mats or coaters before placing food or drink on the surface.
4. Ensure product is completely dry before putting an outdoor covers.
5. To maintain the glamour of the wood, apply teak sealer or wax once every 6 to 12 months.

Don'ts

1. Do not use silicone based polishes.
2. Do not use abrasive cleaners that may damage the finishes.
3. Avoid moving the furniture in between extreme conditions such as from outdoor under the sun to indoor air conditioned room since wood will crack naturally to adapt this environment changes.

Natural Characteristics:

1. Tiny fissures or cracks may develop if there are changes in humidity and temperature. This is unavoidable and occurs naturally in solid wood furniture.
2. Natural wood knots, imperfections as well as wood grain and colour variations are to be expected for this natural teakwood.
3. Teak will naturally turn to silver gray patina color if left untreated outdoor, cover the furniture to extend the lifetime appearance or store indoors in dry and non-heated room during winters and inclement weather.
4. It is normal for teak wood to expand and contact with time and changes in weather.

Follow the care instructions and look after your furniture. In return, your furniture will look after you.
