JARON MOTION MODULAR SOFA

Assembly Instructions & Care Guide

CASTLERY

Hello there.

We're so glad that our Castlery product has found a home with you. As proud makers of modern, quality furniture, we’re confident that you will love and enjoy your purchase.

Setting it up is easy. Read on for a step-by-step guide to have your item assembled and ready for use.

Once you’re done, consider sharing a photo on social media or leaving us a review. We’d love to see how you've styled it in your space.

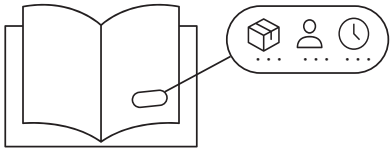

Thank you for being part of the Castlery community!

Should you have any questions or concerns regarding your purchase, you can contact us via **www.castlery.com/contact-us.**

www.castlery.com

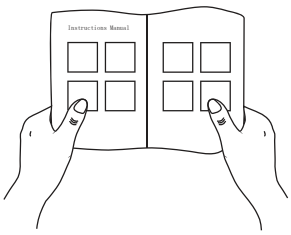

Before you start...

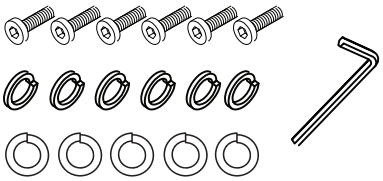

Check that you have received all cartons and familiarize yourself with the assembly requirements. This includes setting aside the allocated time required and having someone to assist you, if needed.

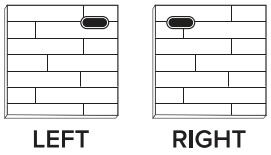

Ensure enough space for assembly. We recommend protecting your floor with a mat or cardboard to avoid scratches during the assembly process.

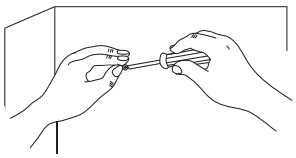

Read instructions carefully, and check that no parts are missing.

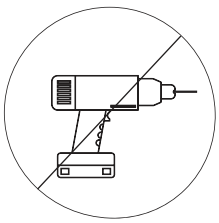

Lay out all hardware on a soft surface so you can easily identify them.

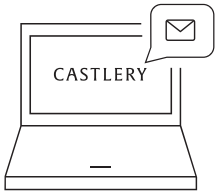

Carefully identify all components to differentiate which pieces are left and right.

Carefully install your new product following the instructions stated. Don't skip ahead!

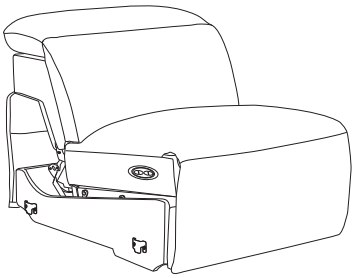

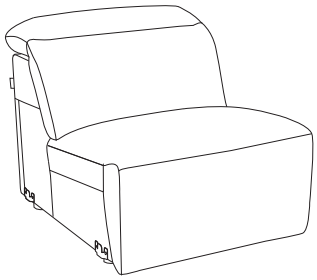

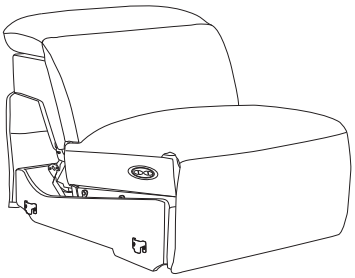

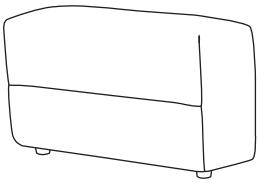

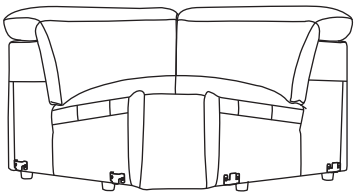

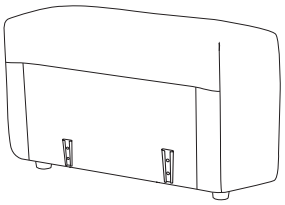

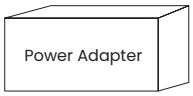

DO NOT over-tighten screws or use a drill. Only professional assemblers should use a drill.

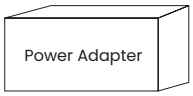

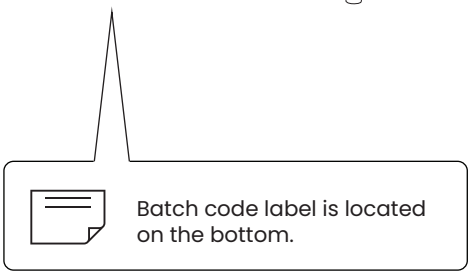

If you need further assistance, please contact us via **www.castlery.com/contact-us**.

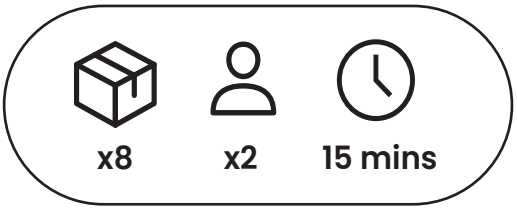

Overview

IMPORTANT: 2 persons needed for assembly.
This will help to minimize potential damage to the product or injury to persons during assembly.

There are inner box(es) that include components required to complete this assembly.

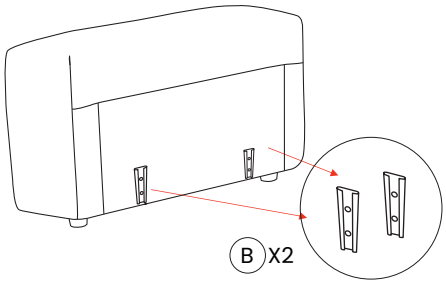

Please do not completely tighten all the hardware, until each assembly step is complete.

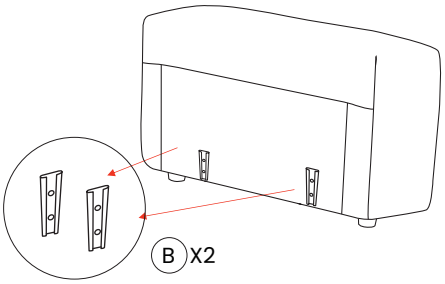

Before discarding the packaging, please use the checklist to ensure that you have all the parts required to assemble your product. Please kindly note if applicable please keep the original package when you want to return the product later.

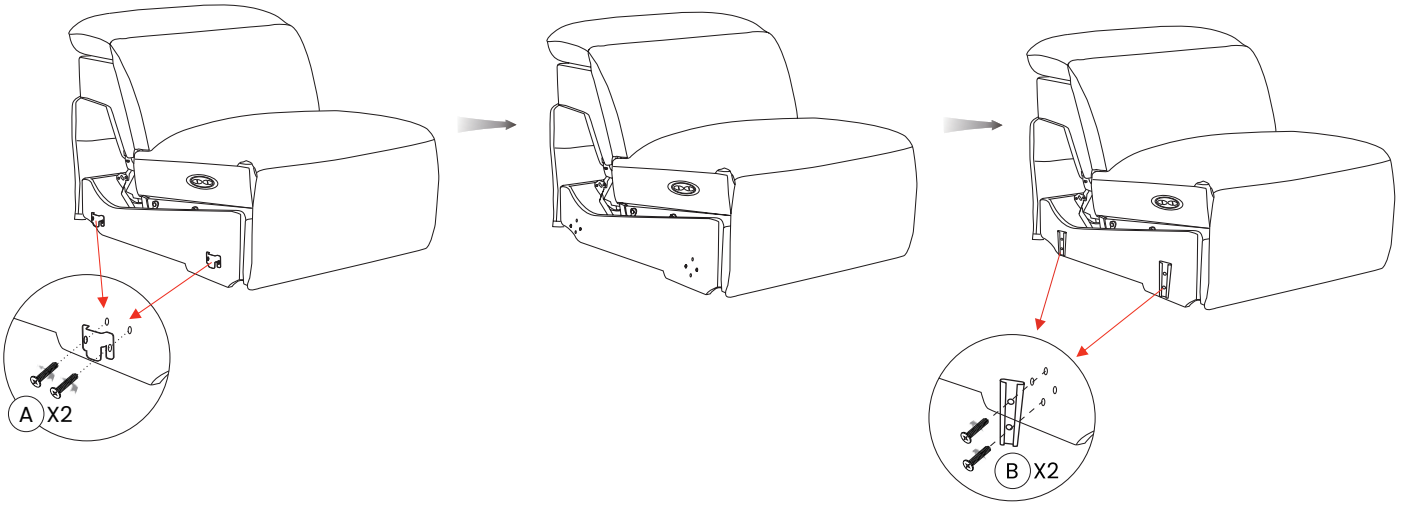

If parts are missing or damaged, we will gladly ship your replacements parts free of charge. Please contact us via **www.castlery.com/contact-us.** Illustrations in this guide are for reference only and may be slightly different from the actual object.

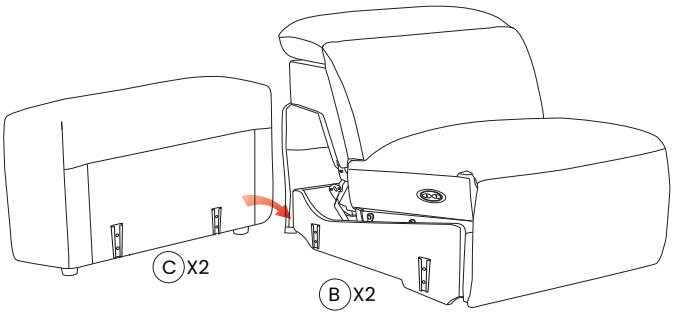

Step 1

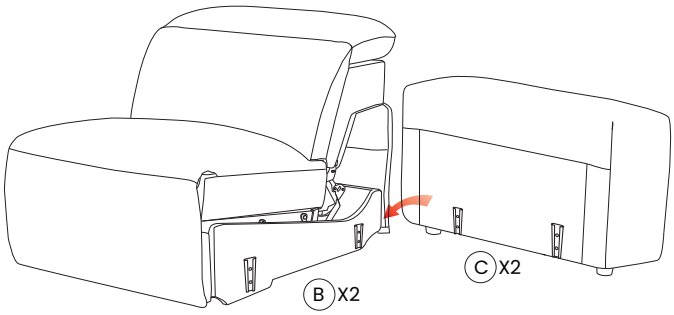

1. Take all components out from carton boxes. Find the connector B that pre-assembled on Armrest, take them off.
2. Take off connector A from Armless piece, keep the screws and put on connector B with the screws.
3. Assemble the Armrest to the Armless piece by inserting Connector C into Connector B.

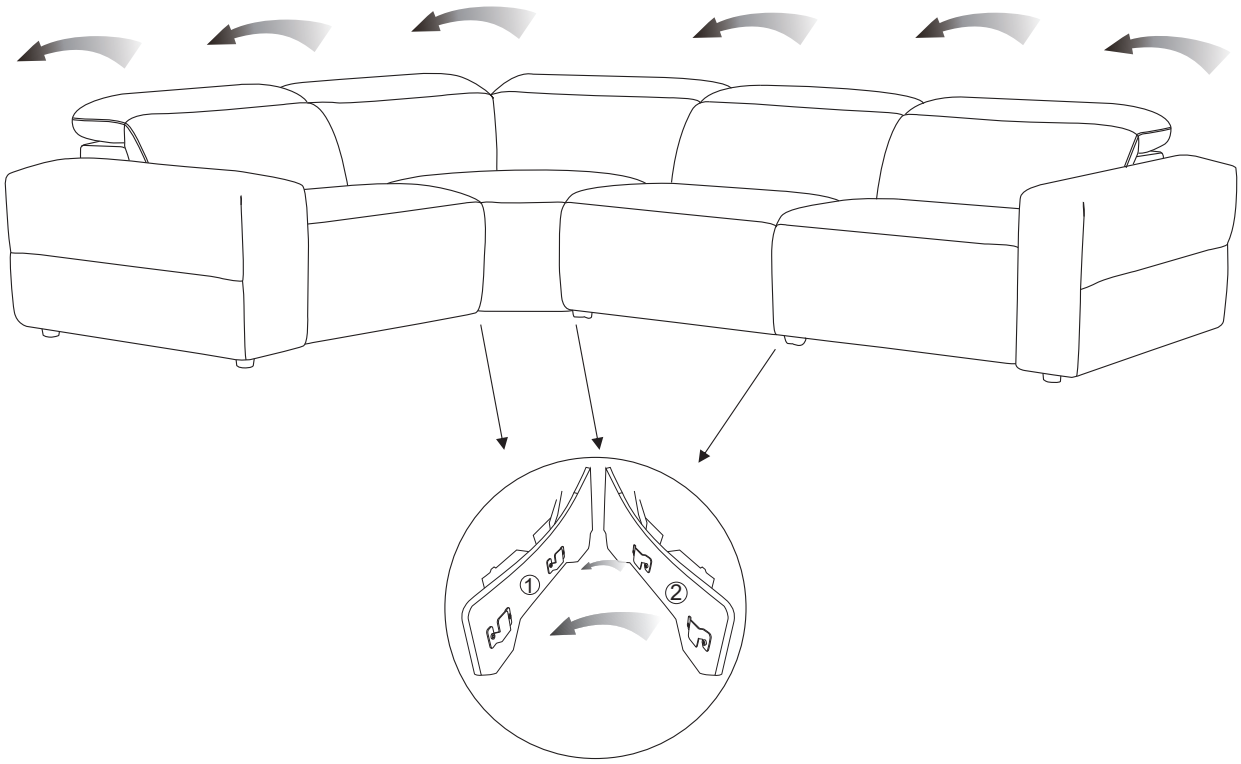

Step 2

Put the sofa at least 15 cm away from the wall. Connect each piece of the sectional from left facing to right together by locking connectors. Always lift the right piece over the left piece to lock the connector.

⚠ WARNING – To reduce the risk of injury:

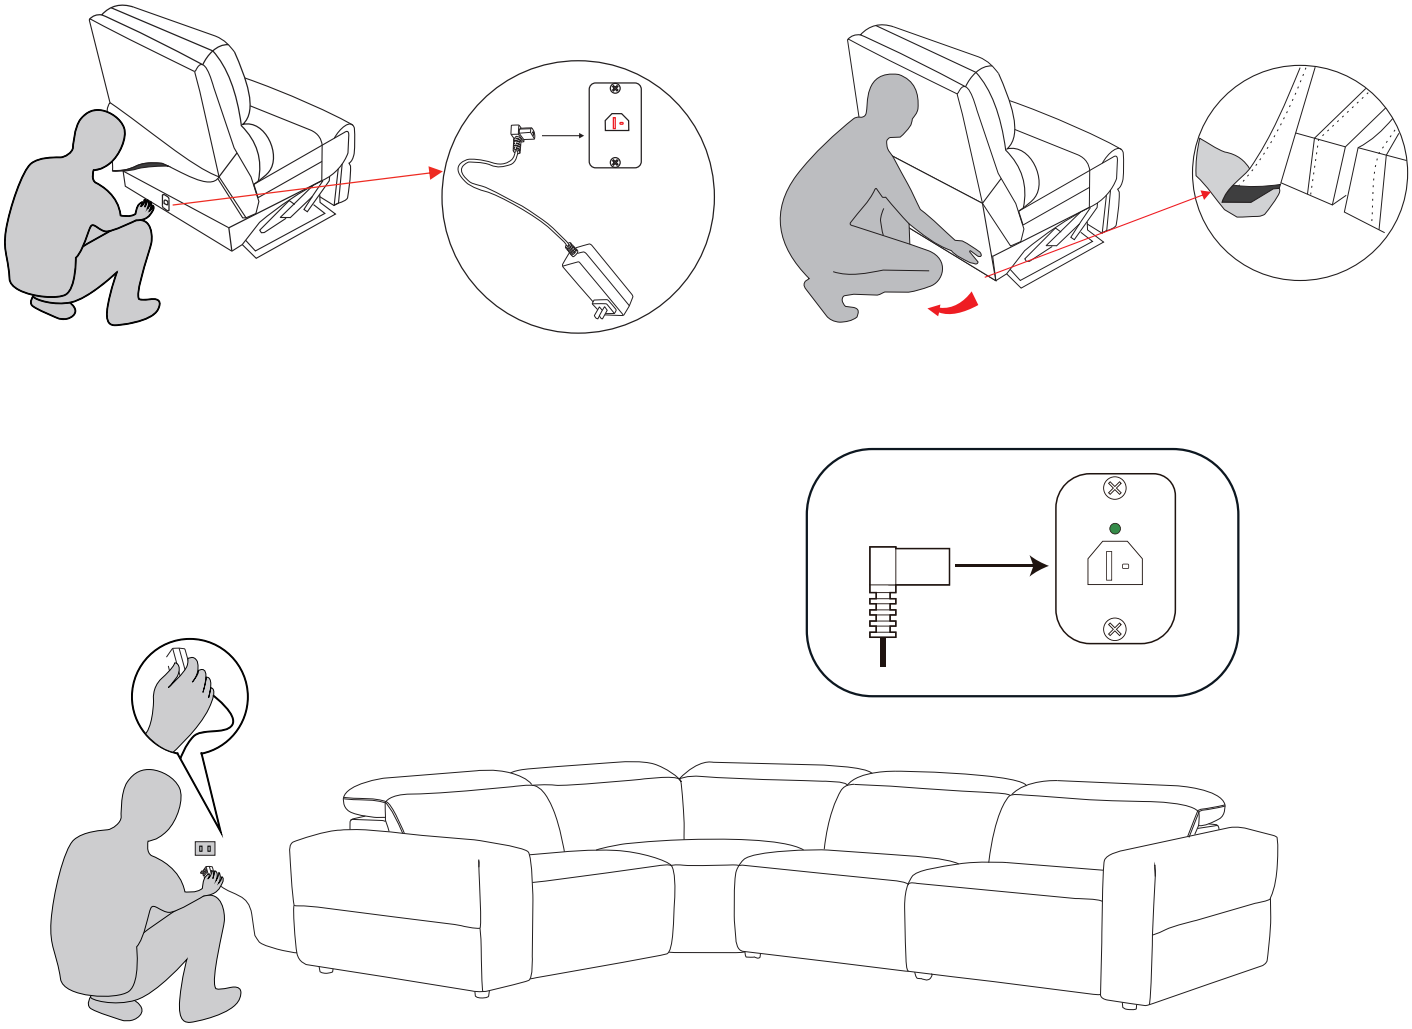

• The front of the unit must be raised to engage the front bracket. Please see assistance if you are unable to lift at least 57 pounds.
• Keep feet clear of the unit when lowering into position.

⚠ NOTICE – To reduce the risk of product damage:

• Lift from the base rail. Do not lift from the upholstery or the bottom of the footrest.
• Do not move the units while connected together. The purpose of the bracket system is to connect the units and prevent them from being separated while on the floor. The bracket system does not provide adequate structural support for the movement of connected units.

Step 3

Take the power supply out from part box, and connect the power supply to the back. Plug the power supply into power outlet.

WARNING – To reduce the risk of serious injury:

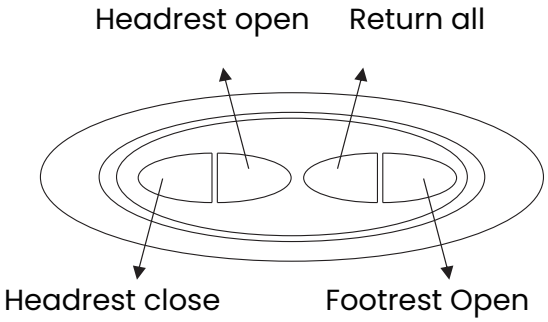

• Provide a clear path for operation of the back and footrest. Place tables and area rugs at a distance to allow the footrest to fully extend without rubbing or interference.
• Never operate the unit with a damaged power supply, electrical cord, plug or connector. Check the condition of the power supplies, electrical cords, plugs and connectors often.
• Keep the electrical cord away from heat sources.
• Power motion upholstery with and without headrest units are intended for a single occupant not exceeding 300 pounds per seat. Do not operate an individual seat with more than one occupant in or on any part of the individual seat.

Operating Instructions

⚠ NOTICE

• After 1 minute of continuous operation, allow the system to rest for 9 minutes.

Power Switch

Troubleshooting

Troubleshooting for Footrest Operation
If the footrest stops moving while closing, it may have encountered an obstruction.
1. Check to make sure there are no obstructions. Lift and hold the footrest up, look for obstructions and remove them.
2. The footrest uses spring tension to close, and will close quickly when the obstruction is removed. Release the footrest slowly to prevent it from slamming shut.

Troubleshooting the Power Modular with Headrest
1. Make sure the power cord is plugged into an electrical outlet.
2. Check the power supply to make sure the green LED power indicator light is on.
3. Make sure the electrical outlet is working. For example, make sure there are no blown fuses or tripped circuit breakers. If you are unsure of the outlet's condition, check with a qualified electrician.
4. Make sure the electrical cords are not crimped or pinched. Make sure the electric cord or plug is not damaged.
5. Make sure the operating capacity has not been exceeded and there is only one occupant in the individual seat or unit.

Finished!

Congratulations, we're almost there!

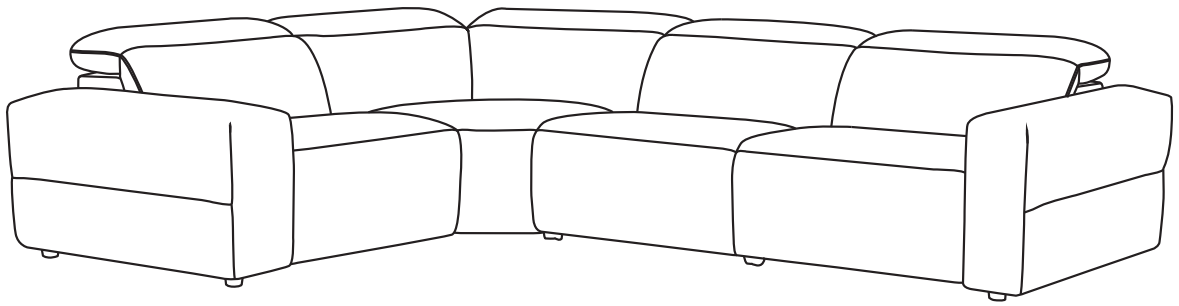

Always lift your Castlery product when moving it to your preferred location. Levelers (if any) may slant if you drag your product.

Finally, dust the product with a clean cloth(if needed).

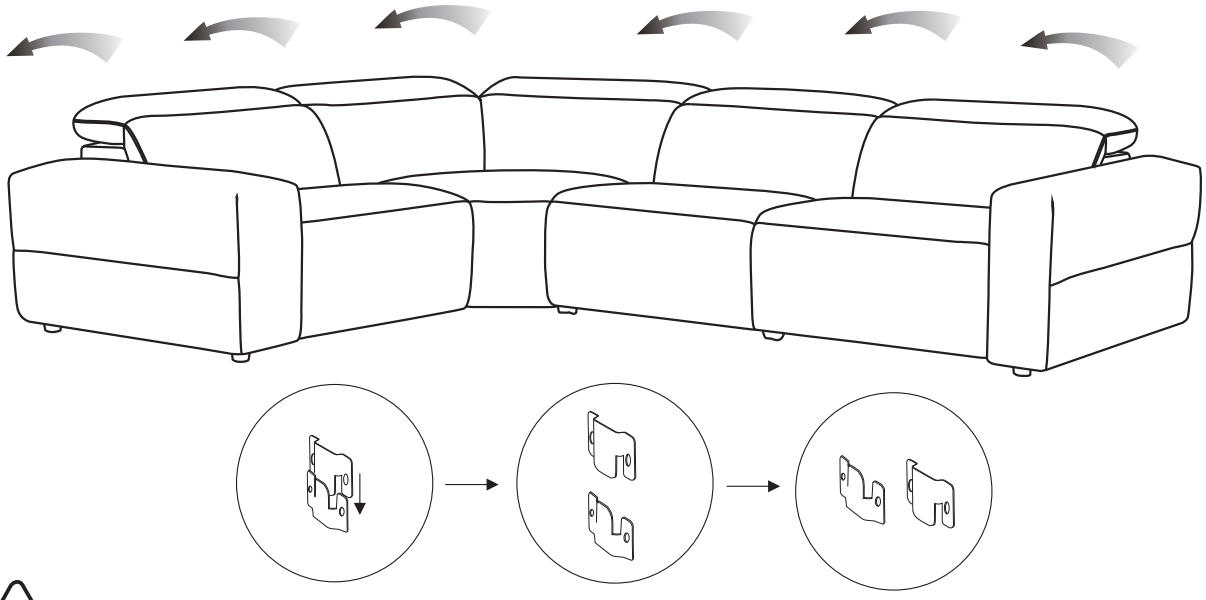

You're all set! Enjoy your new living space, thanks to the addition of your Castlery product.

Note: Your actual product may have minor size differences due to manual measurements.

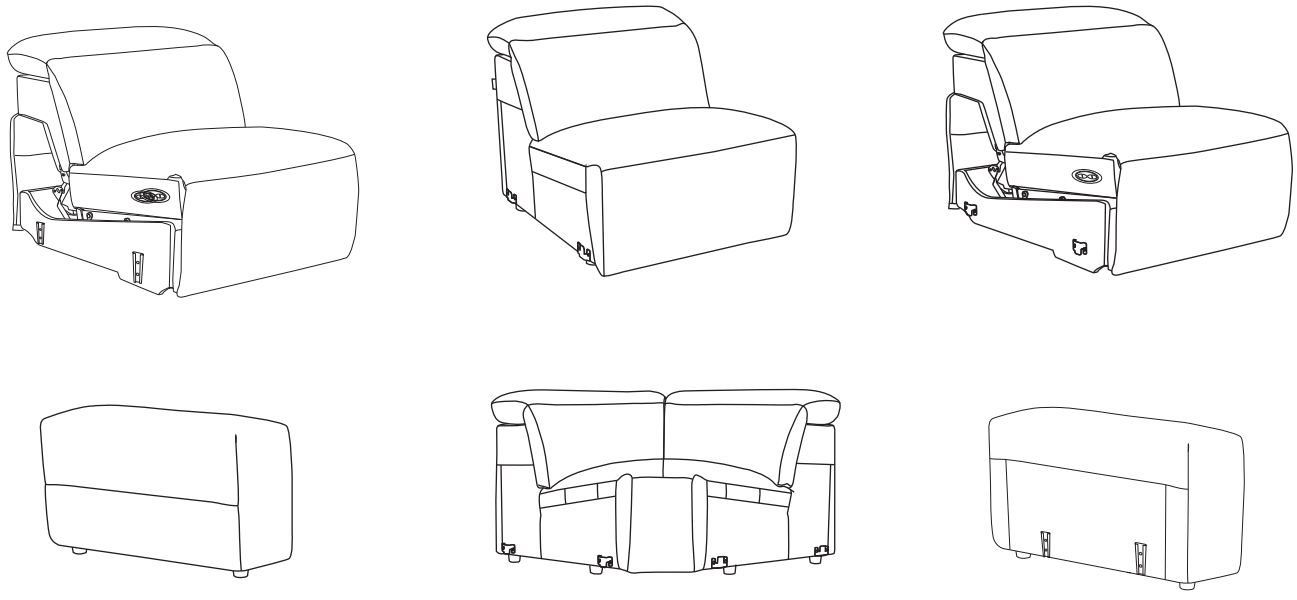

Note: All the configurations are individual pieces including arm, seat, corner, you can purchase any configurations to build up what you want for your living room.

How to Disassemble?

To disassemble the sofa, lift the sofa with the reinforcement fitting and push it away.

Care Instructions

Your furniture, if treated with respect and love, will last you a long time. Each piece requires light maintenance to maximize its longevity.

General Care

- Do not sit on sofa arms and/or back frame.
- Always move the sofa by lifting it at the base, do not drag.
- Avoid prolonged exposure to direct sunlight and keep sofa away from any heating source to prevent fading or discoloration.
- Using a brush attachment, vacuum the sofa regularly to remove any dust particles.
- Blot spills immediately and gently with a clean micofiber cloth. Do not rub.
- Professional cleaning is advised for tough stains.
- Avoid sitting on the sofa when wearing clothing that may cause color transfer.
- For removable cushions, flip, rotate and fluff the seat and back cushions regularly to prolong their lifespan and keep them plump.
- For non-removable cushions, to straighten folds and creases that form on cushions after prolonged use, smooth the surface with your hands and tuck any excess upholstery into the sides of the cushions.

Fabric Care

- Pilling may occur because of wear and tear and can be easily removed with a fabric comb or fuzz remover.

Leather Care

- Use a leather conditioner to keep the leather soft and supple — let dry before sitting.
- Avoid placing sharp items on the sofa, like keys or scissors.
- A patina or slight sheen will develop on the surface of the sofa over time and is part of normal wear and tear of leather that adds character to the sofa.

Follow the care instructions and look after your furniture. In return, your furniture will look after you. For more information on our care instructions, visit our product website at www.castlery.com

We hope to see you soon!
