About Me

I am a product designer with a strong engineering background, specializing in user experience and digital product design. Experienced in UX research, user and task flows, wireframing, interactive prototyping, and Figma-based design systems. Focused on creating clear, intuitive, and accessible experiences for web and mobile products.

WORK EXPERIENCE

1stKings Ltd

May 2026 – Till date

User Experience Designer

- Conducted competitive UX research across Jumia, Jiji, and Facebook Marketplace for RISE.
- Designed end-to-end user flows and high-fidelity prototypes in Figma.
- Collaborated with leadership to refine user flows and product design decisions.
- Prepared design handoffs, UI assets, design systems, and documentation for developers.

Upwork

Feb 2026 – May 2026

Product Designer

- Designed onboarding and navigation flows for Roam, a property booking application.
- Created Astrocore, a space-themed landing page concept in Figma.
- Designed animated UI assets and hero banners for YouWatch, a movie-streaming platform.

CodeMatrixNG

Mar 2025 – Aug 2025

Junior UI Designer

- Designed web and mobile interfaces using wireframes and interactive prototypes.
- Conducted user research to support the product design process.
- Collaborated with developers in a remote agile environment.

INDEPENDENT BUILDS

2026

- Cal AI: Redesigned the signup flow to improve usability and user experience.
- FlowAI & Financial Tools: Designed a responsive hero, app icon, and mortgage calculator.
- Direct Messaging Flow: Designed low-fi wireframes and high-fi UI for a mobile messaging experience.
- NASA Space Launch Timer: Designed a space-themed desktop countdown interface.
