

TIE BREAKING FORMULA REGULAR SEASON STANDINGS

If two or more clubs are tied in points during or after the conclusion of the Regular Season, the standing of the clubs is determined in the following order:

- 1. Greater number of wins in regulation time (3-point wins)
- Greater number of wins in total (regulation time wins (W) + overtime and shootout wins (OTW))
- **3.** Better goal difference (GDF)
- 4. More goals scored (GF)
- **5.** Greater number of points in away games (APTS)
- **6.** More away goals scored (AGF)
- 7. The higher position in the CHL Draw pot allocation

The tie breaking formula also applies in the overall accumulated team record.

For clarity: In case two teams are still tied after the 6th tie-breaker, the higher position in the CHL Draw pot allocation for the current season will decide the position in the overall standings.
