Have your academic interests evolved since arriving at CBU? If so, how?

If you were initially undecided as to your major, have you come any closer to making a decision? If so, how have you narrowed your field of choices?

If you have already chosen a major, have you identified particular areas of interest within the major?

What have you learned about yourself so far, including strengths and areas you would like to work on or improve?

Have you achieved a satisfactory balance in meeting your academic, work, extra-curricular, and personal responsibilities? What improvements could you make in this area? How do you intend to make these improvements?

What are your current career interests? Why are you interested in this career?

How do you expect to explore your career interests and plan for life after CBU through your academic and extra-curricular pursuits during your sophomore, junior and senior years?
