Certificate Programs

CBU is home to the Healthcare Packaging Consortium, providing synchronous and asynchronous online classes.

Choose Three Courses:

ENGM 640. Packaging Technology (Fall)

ENGM 643. Healthcare Packaging (Spring)

ENGM 644. Transport Packaging (Summer)

ENGM 645. Principles of Packaging Development (Spring)

Faculty:

Yongquan Zhou, PhD, CPP Asit Ray, PhD Siripong Malasri, PhD, PE, CPLP, CPP Packaging is an interdisciplinary field. It includes the study of products, packages, materials, containers, structures, methods, machinery, sustainability, and transportation. Packaging engineers are employed in areas such as packaging engineering, development, sales, purchasing, structure design production, research, and marketing.

The Graduate Certificate
in Packaging Engineering is
designed for those who have
already had an undergraduate
degree and are moving
up to assume managerial
responsibilities in their company,
which has to deal with packaging
in some form.

For more program information, course descriptions, and application materials, visit the Graduate Certificate in Packaging Engineering web page.
