## CBU Career Services Class of 2023 Post-Graduation Report Introduction

Career Services empowers CBU students and alumni by providing comprehensive career development services and resources to support them in their pursuit of meaningful post-graduate goals. The Post-Graduation Report includes information collected from both the Graduate and Undergraduate classes of 2023. The self-reported data was obtained from the graduates through an initial post-graduate survey, as well as through a follow-up on-line survey, email, phone calls and through contact with faculty members.

Due to the cyclical nature of business and industry, the information in this report should not be viewed as long-term results, but rather as an informational resource for career planning. Local and regional economics may impact different outcomes in this report from year to year.

Of the 628\* graduates contacted from the class of 2023 (undergraduate and graduate level), survey information was collected from 610. This represents an overall 97.13% response rate. The total response rate for undergraduate students was 96.59%, with data collected from 255 out of 264 students.

In analyzing the post-graduate numbers for the CBU Class of 2023, 596 of the 610 graduates responded indicating either being employed and/or attending graduate school. **This results in a total placement rate of 97.70% for the Class of 2023.** Additional information on employment and graduate school placements is listed in the tables below.
