CBU Career Services Class of 2015 Post-Graduation Report Introduction

Career Services empowers CBU students and alumni by providing comprehensive career development services and resources to support them in their pursuit of meaningful post-graduate goals. The Post-Graduate Report includes information collected from both the Graduate and Undergraduate classes of 2015. The self-reported data was obtained from the graduates through an initial post-graduate survey, as well as through a follow-up on-line survey, email, phone calls, social media, and through contact with faculty members.

Due to the cyclical nature of business and industry, the information in this report should not be viewed as long-term results, but rather as an informational resource for career planning. Local and regional economics may impact different outcomes in this report from year to year.

Of the 456 graduates contacted from the class of 2015 (bachelors and masters level), survey information was received from 431. This represents an **overall 94.52% response rate**. The total response rate for **undergraduate students was 94.26%**, with data collected from 230 out of 244 students.

In analyzing the post-graduate numbers for the CBU Undergraduate Class of 2015, 220 of the 230 graduates responding indicated either being employed and/or attending graduate school. This results in a **total placement rate** of 95.65% for the Undergraduate Class of 2015. Additional information on employment and graduate school placements is listed in the tables below.

	Usable Records	Employed	Attending Graduate School	Volunteering or Serving	Total Employed and/or Attending Graduate School
