CBU Career Services Class of 2012 Post-Graduation Report Introduction

Career Services empowers CBU students and alumni by providing comprehensive career development services and resources to support them in their pursuit of meaningful post-graduate goals. The Post-Graduate Report includes information collected from both the Graduate and Undergraduate classes of 2012. The data was obtained from the graduates through an initial post-graduate survey, as well as through a follow-up on-line survey, email, phone calls, social media, and through contact with faculty members.

Due to the cyclical nature of business and industry, the information in this report should not be viewed as long term results, but rather as an informational resource for career planning. Local and regional economics may impact different outcomes in this report from year to year.

Of the 403 graduates (graduate and undergraduate classes) of the class of 2012, survey information was received on 338. This represents an *overall* 83.87% response rate. However, the total response rate for undergraduate students was 90%, with 216 out of 240 students responding to the survey.

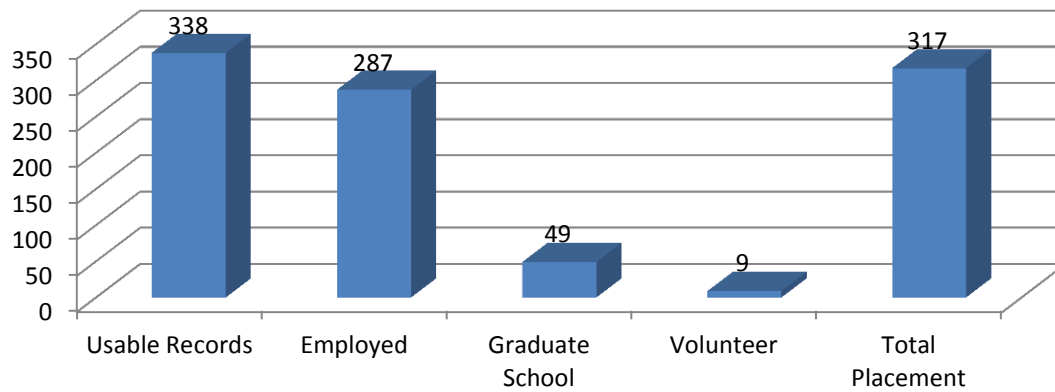

In analyzing the post-graduate numbers for the CBU Undergraduate Class of 2012, 92.2% of graduates responded as either being employed and/or attending graduate school. This results in a ***total placement rate*** of 92.2% for the Undergraduate Class of 2012. Additional information on employment and graduate school placements is listed in the tables below.
