Fun Facts About Independence Day

Each year around 500,000 people gather to watch fireworks and listen to patriotic music in Washington DC on the Capitol lawn.

There were approximately 2.5 million people living in the United States when independence was declared in 1776. John Adams and Thomas Jefferson, both presidents and signers of the Declaration of Independence, died on the 50-year anniversary on July 4, 1826. President James Monroe also died on July 4th and President Calvin Coolidge was born on July 4th.

The longest running celebration is said to be the Bristol Fourth of July Parade in Rhode Island which has been running since 1785.
