Chop Chair

Design by Philippe Malouin

The Chop Chair by Philippe Malouin is an evergreen design conceived for use in a range of public and private outdoor spaces. Beautifully proportioned, with subtle curvatures, it is intentionally simple, in both construction and style. Chop reimagines a classic slatted-chair archetype to create a silhouette that is immediately recognizable, yet pleasingly unknown. The idea for the design was influenced by Malouin’s work in the art world, where he often utilizes hand-led industrial techniques to develop striking forms that accentuate the object’s materiality. The Chop collection is cut, bent and welded from durable stainless steel, and is available in a raw, sandblasted or powder-coated colored finish. A design for all seasons, Chop is correctly weighted to resist wind, while still being light enough to move around and stack with ease.

Chop Table Round

Design by Philippe Malouin

The Chop Table by Philippe Malouin is an evergreen design conceived for use in a range of public and private outdoor spaces. Intentionally simple, in both construction and aesthetics, the Chop collection reimagines classic archetypes to create pieces that are immediately recognizable, yet pleasingly unknown. The Chop table has a central rectangular column and a four-pronged base. It is heavily influenced by Malouin’s work in the art world, where he often utilizes hand-led industrial techniques to develop elegant paired-back forms. The table is available with both a circular or round top, and is suitable for a range of different spaces and layouts. Chop is made from a durable stainless steel, and is available in a raw, sandblasted or powder-coated colored finish.
