

# LA PLANTATION

FAIR SPICES PRODUCER

Press Release

19 August 2021

## LA PLANTATION LAUNCHES ITS NEW RANGE: OUR SPICY SAUCES

AN EXCLUSIVE PREVIEW AT GOURMET SELECTION SALON  
12 AND 13 SEPTEMBER 2021 (E036 STAND)

Animated by the passion of the project they created in 2013 (La Plantation in Kampot, Cambodia), Nathalie Chaboche and Guy Porré, Franco-Belgian couple, present their latest novelties, live from their 2021 production, and especially, a new range of spicy sauces:

- Spicy Pineapple
- Spicy Mango
- Masala Khmer
- Smoked Chili
- Tamarind BBQ
- Fresh Green Kampot Pepper

This latest sauce with Fresh Green Pepper is proposed as a limited edition, its fabrication being exclusively realised during the harvest season of our Kampot Pepper (March to June).

“ Producers of Kampot Peppers and spices, we wanted to add a new range of cooked spicy sauces, made from fresh and local ingredients, as well as our spices and chilies. The freshness of our spices, their perfect traceability, and their distribution direct-from-producer is the quality guarantee for our gourmets. », comments Nathalie, co-founder with her husband of La Plantation in Kampot.

The participation at Gourmet Sélection Salon allows us to meet professionals from the industry and recruit partners in France and Europe who share our values (natural, fair trade, social) and wish to represent a Kampot Pepper and spices producer without any intermediaries.

### *About La Plantation :*

Created in 2013, La Plantation, a family-owned project, is committed to grow and deliver the best sustainable spices. In our flagship farm in the Kampot area in southern Cambodia, we follow century-old traditions to preserve the original taste of each spice. We create new blends and recipes every year, bringing the unique Kampot terroir to tables around the world. Our production model respects fair trade principles. As soon as harvested, the peppercorns, spices, roots, leaves and fruits are processed immediately in our on-site processing facilities. This freshness preserves the quality and the aromas of our products. From farm to table, we build a short supply chain with trusted partners to guarantee the freshest spices.

In Cambodia, La Plantation is an agrotourism site with multiple activities. With over 60000 visitors in 2019, La Plantation is one of the most visited sites of the Kampot region.

La Plantation's project is first and foremost Social, and we employ more than 150 people full time (and +150 during the harvest) and the financial support of the education of over 100 kids from the village (primary, secondary and higher education).
