

PARAGRAPHE EXTENDS ITS SKILLS

PARAGRAPHE brand is well known for its colored acetate frames. It is also famous for its Mille-Feuilles frames which are cut in specific and multicolored sheets that the brand makes by itself in its Oyonnax mill.

PARAGRAPHE now extends its skills to other sophisticated frames :

- Glued faces where different acetate colors or patterns are assembled together
- “Eye for Eye” constructions where two different colors are assembled around the eyes which gives a bright and colorful look.
- Combined acetate and metal frames for an outstanding effect.

All these frames are manufactured in our Oyonnax mill, located in the Jura area. All are labeled “Origine France Garantie”, certified by an independent control company.

For any question, please contact Denis BLIN, CEO Paragraphe at d.blin@paragraphe.com or +33 6 07 79 04 44
